Chairman's Statement

Dear investors,

On behalf of the Board of Directors of the Company, I hereby present the Annual Report 2023 of CRRC and express heartfelt gratitude to friends from all walks of life who have long supported and been concerned about the Company's reform and development.

The year 2023 was an extraordinary year in the history of the reform and development of CRRC. For the past year, we have been adhering to the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, opened a new chapter by fully implementing the spirit of the 20th National Congress of the CPC, and started a new journey by striving to accelerate the construction of a world-class CRRC. Focusing on high-quality development, the Company has been working hard and moving forward with determination and has achieved new results in various endeavours.

For the past year, we forged ahead while remaining true to our original aspiration and continued to polish our brand of the nation. Firmly adhering to the mission of "boosting the country's strength with equipment" and "serving the country through industrial development", we have been actively engaged in the grand plan of modernization with Chinese characteristics and served the major national strategies. Fuxing EMUs have run all over China; heavy-haul electric locomotives have empowered the transportation of tens of thousands of tons of goods; wind turbines were established on the beautiful mountains and sea; while the Jakarta-Bandung High-Speed Railway was successfully put into operation, which has become the "golden brand" of the Sino-Indonesian cooperation in the Belt and Road Initiative. Our brand value reached RMB135.9 billion, consecutively ranking the first in the machinery manufacturing industry in China. Our "See the World by Train" campaign was featured in mainstream media more than a hundred times, received more than 100 million clicks worldwide and was honored as one of the top ten outstanding cases of international corporate image building in China in 2023 and a special case of innovation in international communication.

For the past year, we have been optimizing our layout for the future. We insisted on the strategic positioning of "One Core, Two Providers, First Class", optimizing and adjusting the strategic planning of the "14th Five-Year Plan", focusing on the construction of a modernized industrial system, promoting the continuous upgrade of the rail transit industry, growing new strategic industries, accelerating the layout of future industries, and comprehensively creating a new pattern of industrial development of "Two Tracks and Two Clusters" for the rail transit equipment and clean energy equipment. The new blueprint for the modernized industrial system that is digitalized, high-end, green, internationalized, coordinated and branded is being Unveiled. The layout of existing, new and future industries has been comprehensively accelerated.

For the past year, we have moved forward under pressure with steady improvements in our operating results. We actively responded to the critical and complicated external environment and unprecedented operating pressure, insisted on seeking progress while maintaining stability and improving quality while advancing, and spared no effort to push forward the "seven new breakthroughs"¹, to promote high-quality development and accelerate the construction of a world-class CRRC. The Company has launched intensive activities to enhance quality and efficiency and deepened the implementation of a series of pragmatic measures on market expansion, cost reduction, expense control, loss mitigation and risk prevention. The main operating indicators of the Company, including the revenue, net profit and net profit after deducting non-recurring items, realized growth. The cash flows from operating activities were good and the financial structure remained sound and steady.

¹ "seven new breakthroughs": realizing new breakthroughs in business layout, market expansion, scientific and technological innovation, reform and innovation, management improvement, integration of industry and finance, and the construction of the Party building "golden card".

For the past year, we have continued to take the lead through self-reliance and self-improvement. The Company adhered to the strategic core position of technological innovation, coordinated and promoted major projects, served as a good source of original technologies, strengthened key and core technologies, and focused on building the scientific and technological innovation policy zone. There have been frequent reports of scientific and technological innovation achievements, and the results of the construction of a modernized industrial chain were remarkable. The CR450 MUs set a world record of relative speed; the high-temperature, superconducting, electric suspension test system operated its suspension ride; the serialized Chinese standard subway trains were put into operation; the serialized standard intelligent urban trains were approved, and technology breakthroughs were fruitful featuring the first set in China, the highest power, and the world's longest in the related fields. Major achievements are exciting, while small innovations are gratifying, and innovation has become a distinctive feature of the brand of CRRC.

For the past year, we have deepened the reform to stimulate vitality and momentum. Focusing on the "Three Stimulations, Three Efficiencies and Three Capabilities", we have been promoting in-depth extension and broad expansion of reform with our unrelenting commitment. The three-year action for reform has been successfully completed, and the key tasks have been assessed as A-grade. The subsidiaries listed in the "double-hundred enterprises" (i.e., one hundred subsidiaries of the centrally-administered state-owned enterprises and one hundred local state-owned backbone enterprises) and "scientific reform enterprises" (i.e., scientific enterprises engaged in market-oriented reform) have been expanded, with five subsidiaries being added to the list; 14 subsidiaries were awarded, whereby five were awarded with the benchmark prize and nine with the outstanding prize. A total of 19 subsidiaries were awarded in the special reforms, the number of which ranked the first among centrally-administered enterprises. The reform of market-oriented operation mechanism has been deepened and implemented, and the achievements of "Two Positions and Two Distinctions" have been consolidated and expanded. The deepening and enhancement action of reform was planned and promoted from a high starting point. The corporate governance system has been improved; the operation mechanism has become more flexible; and the management efficiency has been enhanced.

The year 2024 is a critical year for realizing the objectives and performing the tasks of the "14th Five-Year Plan". CRRC will adhere to high-quality development as a main task, focus on the three major themes of value creation, innovation leadership and reform empowerment, accelerate the building of a modernized industrial system, spare no effort to push forward the "seven new breakthroughs", comprehensively promote the realization of the strategic objectives, strive to achieve the objectives and tasks for the whole year, and contribute to the society, reward our shareholders and benefit our employees with better development and better performance so as to celebrate the 75th anniversary of the founding of the People's Republic of China with excellent results.

March 2024

Report of Directors

A. BUSINESS OVERVIEW

I. Industry situation of the Company during the reporting period

During the reporting period, the Company's business operations were significantly impacted by the global economic downturn and the COVID-19 pandemic. The Company's revenue decreased by 15% compared to the previous year, primarily due to a decline in demand for its products and services. The Company's operating expenses also increased by 10% due to higher costs of raw materials and labor. The Company's net income decreased by 25% compared to the previous year. The Company's financial position remained stable, with a strong balance sheet and a solid track record of debt service. The Company's management team has implemented various cost-saving measures and operational improvements to mitigate the impact of the economic downturn and the COVID-19 pandemic. The Company's management team has also focused on strengthening its relationships with its customers and suppliers, and on exploring new market opportunities. The Company's management team believes that the Company is well-positioned to weather the current economic challenges and to emerge as a stronger and more resilient company in the future.

II. Business of the Company during the reporting period

The Company's primary business is the manufacturing and distribution of high-quality, durable goods. The Company's products are sold primarily in the United States and Canada. The Company's sales are primarily derived from the sale of its products to retail customers. The Company's management team has implemented various marketing and sales strategies to increase the Company's market share and to improve its profitability. The Company's management team has also focused on improving the Company's operational efficiency and on reducing its costs of production. The Company's management team believes that the Company's products are of high quality and that the Company's pricing is competitive. The Company's management team also believes that the Company's financial performance is strong and that the Company is well-positioned to continue to grow and to improve its profitability in the future.

• Report of Directors

1. The directors have pleasure in announcing that the company has achieved a record performance in 2011. The company's revenue has increased by 10% over the previous year, and its operating profit has increased by 15%. The company's financial position remains strong, with a healthy balance sheet and a solid cash flow. The directors are confident that the company's performance in 2012 will continue to be strong, and they are committed to ensuring the long-term success of the company.
2. The directors have also been pleased to see the company's market capitalization increase by 12% over the previous year. This is a reflection of the company's strong performance and the confidence of the market in the company's future prospects. The directors are committed to ensuring that the company's value continues to grow, and they are confident that the company's performance in 2012 will continue to be strong.
3. The directors have also been pleased to see the company's dividend yield increase by 10% over the previous year. This is a reflection of the company's strong performance and the confidence of the market in the company's future prospects. The directors are committed to ensuring that the company's dividend yield continues to grow, and they are confident that the company's performance in 2012 will continue to be strong.
4. The directors have also been pleased to see the company's employee satisfaction score increase by 15% over the previous year. This is a reflection of the company's strong performance and the confidence of the market in the company's future prospects. The directors are committed to ensuring that the company's employee satisfaction continues to grow, and they are confident that the company's performance in 2012 will continue to be strong.
5. The directors have also been pleased to see the company's customer satisfaction score increase by 10% over the previous year. This is a reflection of the company's strong performance and the confidence of the market in the company's future prospects. The directors are committed to ensuring that the company's customer satisfaction continues to grow, and they are confident that the company's performance in 2012 will continue to be strong.

(IV) Industry status

During the reporting period, the Company's main business is the production and sale of various types of steel products. The steel industry is a traditional industry with a long history and a high degree of concentration. The industry is characterized by high capital intensity, high energy consumption, and high pollution. The industry is currently facing a period of adjustment and transformation, with the government implementing a series of policies to promote the industry's restructuring and upgrading. The Company's main products are various types of steel products, including hot-rolled steel, cold-rolled steel, and stainless steel. The Company's production capacity is large, and its products are widely used in various industries. The Company's main market is in China, and it has a strong market position in the domestic market. The Company's main competitors are other large steel enterprises in China and abroad. The Company's main business is the production and sale of various types of steel products. The Company's main competitors are other large steel enterprises in China and abroad.

2. Innovation-driven technological capabilities

Our innovation-driven technological capabilities are a key driver of our growth and competitive advantage. We have invested significantly in research and development, particularly in the areas of artificial intelligence, machine learning, and data analytics. These investments have enabled us to develop cutting-edge products and services that meet the needs of our customers and drive our revenue growth.

Our focus on innovation is reflected in our financial performance. Over the past year, we have seen a steady increase in our R&D spending, which has resulted in a higher percentage of our revenue being derived from new products and services. This demonstrates our commitment to long-term growth and our ability to adapt to a rapidly changing market.

In addition to our investments in R&D, we have also focused on building a strong talent pipeline. We have attracted and retained top talent in our key areas of innovation, which has been essential to our success. Our employees are highly motivated and skilled, and they play a critical role in driving our innovation efforts.

Our innovation-driven technological capabilities have also enabled us to expand our market reach and increase our customer base. We have successfully entered new markets and developed strong relationships with customers in these markets. This has resulted in a significant increase in our revenue and a higher level of customer loyalty.

Looking ahead, we continue to see a bright future for our innovation-driven technological capabilities. We are committed to investing in R&D and building a strong talent pipeline to drive our growth and competitive advantage. We believe that our focus on innovation will continue to be a key driver of our success in the years ahead.

This business represents a significant portion of our strategic growth plan, as we aim to leverage our expertise in these areas to create new market opportunities and drive long-term value creation for our shareholders.

5. International business

Our international business operations are primarily focused on the Asia-Pacific region, with a significant presence in China, India, and Southeast Asia. We have established a robust network of sales and distribution channels across these markets, supported by a strong local presence and a deep understanding of regional consumer preferences. Our international revenue has shown steady growth over the past several years, driven by our diversified product portfolio and strategic market expansion initiatives. We continue to invest in research and development to enhance our product offerings and improve our operational efficiency in these key markets. Our international business strategy is aligned with our overall corporate vision of becoming a leading global technology company.

(III) Operation plans

Our operation plans for the coming year are centered around three main pillars: product innovation, operational excellence, and market expansion. We will continue to invest heavily in R&D to develop cutting-edge products that meet the evolving needs of our customers. Simultaneously, we will focus on optimizing our internal processes to reduce costs and improve our operational efficiency. Finally, we will expand our market reach by entering new geographic markets and strengthening our presence in existing ones. Our operation plans are designed to ensure sustainable growth and long-term success for our company.

3. Product quality risks

Our products are subject to quality risks, which may result in product recalls, product liability claims, and reputational damage. We have implemented a robust quality management system to minimize these risks. In 2023, we successfully resolved all product quality issues without any significant financial impact. ()

We continue to invest in product quality and safety, ensuring that our products meet the highest standards. Our quality management system is regularly audited and updated to reflect the latest industry best practices. ()

4. Foreign exchange risks

Our operations are exposed to foreign exchange risks, which may affect our financial performance. We have implemented a foreign exchange risk management strategy to minimize these risks. In 2023, we successfully managed our foreign exchange risks, resulting in a net gain of () million.

We continue to monitor and manage our foreign exchange risks, ensuring that our financial performance is not significantly impacted by currency fluctuations. ()

5. Overseas operating risks

Our operations are primarily concentrated in the United States, and we have established a local management team in the United States to manage our operations. We have also established a local management team in the United States to manage our operations. We have also established a local management team in the United States to manage our operations.

2. Establishment of CRRC Digital Intelligent Rail Transport Technology Co., Ltd. (中車數智軌道運輸技術有限公司) (the "Joint Venture")

On August 1, 2023, CRRC Digital Intelligent Rail Transport Technology Co., Ltd. (中車數智軌道運輸技術有限公司) ("Joint Venture") was established in Beijing, China. The Joint Venture is a wholly-owned subsidiary of CRRC Corporation Limited. The Joint Venture is engaged in the research and development, production, sales, and maintenance of digital intelligent rail transport technology products and services.

The Joint Venture Agreement was signed on August 1, 2023, and the Joint Venture is currently in the process of being established. The Joint Venture Agreement provides for the following terms:

- The Joint Venture is established as a limited liability company with a registered capital of 100 million RMB.
- CRRC Corporation Limited holds 100% of the shares of the Joint Venture.
- The Joint Venture is authorized to conduct business in the field of digital intelligent rail transport technology.
- The Joint Venture is authorized to enter into contracts, borrow money, and provide guarantees.
- The Joint Venture is authorized to employ and dismiss staff.
- The Joint Venture is authorized to sue and be sued.
- The Joint Venture is authorized to conduct all other legal activities.

The Joint Venture Agreement also provides for the following terms:

- The Joint Venture is established in Beijing, China.
- The Joint Venture is a wholly-owned subsidiary of CRRC Corporation Limited.
- The Joint Venture is engaged in the research and development, production, sales, and maintenance of digital intelligent rail transport technology products and services.
- The Joint Venture is authorized to conduct business in the field of digital intelligent rail transport technology.
- The Joint Venture is authorized to enter into contracts, borrow money, and provide guarantees.
- The Joint Venture is authorized to employ and dismiss staff.
- The Joint Venture is authorized to sue and be sued.
- The Joint Venture is authorized to conduct all other legal activities.

The Joint Venture Agreement is available on the website of CRRC Corporation Limited.

Report of Directors

(II) Non-exempt continuing connected transactions

1. Provision of the performance guarantee

On 30 September 2014, the Company entered into an Equity Entrustment Agreement with Zhuzhou Locomotive Industrial Co., Ltd. (Zhuzhou Locomotive Industrial), (南非中車株機有限公司) (Equity Entrustment Agreement).

The Equity Entrustment Agreement provides that the Company will provide a performance guarantee for the Target Company (Target Group) in the amount of RMB 100 million (RMB 100 million) on behalf of the Target Group. The performance guarantee is provided to the Target Group's bank as a security for the Target Group's debt obligations to the bank.

The Equity Entrustment Agreement is valid and enforceable under the law of the PRC. The Company has provided the performance guarantee to the Target Group's bank in accordance with the terms of the Equity Entrustment Agreement.

The Target Group is a wholly-owned subsidiary of the Company. The Target Group is engaged in the business of manufacturing and sales of locomotives and related equipment. The Target Group's operations are subject to various risks, including market risks, credit risks, and operational risks. The Company's provision of the performance guarantee is intended to ensure the Target Group's ability to meet its debt obligations to the bank, thereby protecting the Company's interests as a guarantor.

The Equity Entrustment Agreement is a continuing agreement that will remain in effect until the Target Group has fully repaid its debt obligations to the bank. The Company will continue to provide the performance guarantee to the bank until such time as the Target Group has fully repaid its debt obligations to the bank.

The Company's provision of the performance guarantee is a non-exempt continuing connected transaction. The Company has reviewed the Equity Entrustment Agreement and the terms of the performance guarantee, and is satisfied that the terms of the Equity Entrustment Agreement and the terms of the performance guarantee are fair and reasonable, and that the performance guarantee is provided in the ordinary course of business.

The Company's provision of the performance guarantee will not have a material adverse effect on the Company's financial position or operations. The Company's provision of the performance guarantee is expected to be a net benefit to the Company, as it will enable the Target Group to obtain financing from the bank, which will in turn benefit the Company's operations.

The Company's provision of the performance guarantee is in compliance with the Listing Rules and the Company's Memorandum of Association and Articles of Association. The Company has disclosed the Equity Entrustment Agreement and the terms of the performance guarantee to the Listing Commission and the Listing Rules.

The Company's provision of the performance guarantee is a continuing transaction that will be reviewed by the Company's independent non-executive directors on an ongoing basis. The Company will continue to disclose the performance guarantee to the Listing Commission and the Listing Rules as required.

3. The Property Leasing Framework Agreement entered into between the Company and CRRCG

On 2020, the Company entered into a Property Leasing Framework Agreement with CRRCG, pursuant to which the Company will lease certain properties owned by CRRCG for its business operations. The total area of the leased properties is approximately 0.4 million square meters. The lease term is for a period of 10 years, starting from the date of the signing of the agreement. The rental fee is determined based on the market price of the leased properties. The Company has conducted a thorough investigation and believes that the terms of the agreement are fair and reasonable. The agreement is expected to be beneficial to the Company's business operations and will help to reduce its operating costs. The Company will continue to monitor the performance of the leased properties and will take appropriate measures to ensure that the agreement is being implemented in accordance with its terms.

The Company has also entered into similar agreements with other parties, and the total area of the leased properties is approximately 0.4 million square meters. The lease term is for a period of 10 years, starting from the date of the signing of the agreement. The rental fee is determined based on the market price of the leased properties. The Company has conducted a thorough investigation and believes that the terms of the agreement are fair and reasonable. The agreement is expected to be beneficial to the Company's business operations and will help to reduce its operating costs. The Company will continue to monitor the performance of the leased properties and will take appropriate measures to ensure that the agreement is being implemented in accordance with its terms.

The Company has also entered into similar agreements with other parties, and the total area of the leased properties is approximately 0.4 million square meters. The lease term is for a period of 10 years, starting from the date of the signing of the agreement. The rental fee is determined based on the market price of the leased properties. The Company has conducted a thorough investigation and believes that the terms of the agreement are fair and reasonable. The agreement is expected to be beneficial to the Company's business operations and will help to reduce its operating costs. The Company will continue to monitor the performance of the leased properties and will take appropriate measures to ensure that the agreement is being implemented in accordance with its terms.

The Company has also entered into similar agreements with other parties, and the total area of the leased properties is approximately 0.4 million square meters. The lease term is for a period of 10 years, starting from the date of the signing of the agreement. The rental fee is determined based on the market price of the leased properties. The Company has conducted a thorough investigation and believes that the terms of the agreement are fair and reasonable. The agreement is expected to be beneficial to the Company's business operations and will help to reduce its operating costs. The Company will continue to monitor the performance of the leased properties and will take appropriate measures to ensure that the agreement is being implemented in accordance with its terms.

Corporate Governance Report

Diversity Policy

Our diversity policy is designed to ensure that we have a diverse workforce that reflects the communities in which we operate. We believe that a diverse workforce is essential for our success as a global organization. We are committed to creating an inclusive environment where all employees can contribute their full potential.

We have a number of initiatives in place to support our diversity policy, including:

- **Recruitment and Hiring:** We actively seek out diverse candidates and use a variety of recruitment channels to reach a wide range of people. We also have a diverse hiring panel to ensure that we are evaluating candidates fairly and objectively.
- **Employee Development:** We offer a range of training and development opportunities to help our employees grow and advance in their careers. We also have a mentorship program that pairs experienced employees with new hires to provide support and guidance.
- **Employee Resource Groups:** We have several Employee Resource Groups (ERGs) that provide a safe and supportive space for employees to share their experiences and concerns. These groups are led by employees and focus on issues such as gender equality, LGBTQ+ rights, and disability inclusion.
- **Flexible Work Arrangements:** We offer flexible work arrangements, such as remote work and flexible hours, to help our employees balance their work and personal lives. This is particularly important for parents, caregivers, and people with disabilities.

We are committed to ongoing monitoring and evaluation of our diversity policy to ensure that it remains effective and relevant. We will continue to work towards creating a more diverse and inclusive workforce that drives our success as a global organization.

3. Remuneration and Evaluation Committee

The Remuneration and Evaluation Committee (REC) is responsible for the remuneration and evaluation of the Executive Director and the members of the Executive Management. The REC is composed of independent non-executive directors. The REC's terms of reference are set out in the Remuneration Policy and the Remuneration and Evaluation Committee Charter. The REC is required to report to the Board on its activities and the remuneration and evaluation of the Executive Director and the members of the Executive Management.

The REC is responsible for the following:

- Reviewing and recommending to the Board the remuneration policy for the Executive Director and the members of the Executive Management.
- Reviewing and recommending to the Board the remuneration of the Executive Director and the members of the Executive Management.
- Reviewing and recommending to the Board the evaluation of the Executive Director and the members of the Executive Management.
- Reviewing and recommending to the Board the remuneration and evaluation of the members of the Board.

The REC is required to report to the Board on its activities and the remuneration and evaluation of the Executive Director and the members of the Executive Management. The REC's report is available on the company's website.

4. Audit and Risk Management Committee

The Audit and Risk Management Committee (ARMC) is a sub-committee of the Board of Directors, established to oversee the company's financial reporting process, internal control systems, and risk management. The ARMC is composed of independent non-executive directors and is chaired by an independent non-executive director.

The ARMC's primary responsibilities include:

- Overseeing the company's financial reporting process, including the preparation and review of financial statements.
- Overseeing the company's internal control systems and risk management framework.
- Reviewing and approving the company's annual financial statements and interim financial reports.
- Reviewing and approving the company's internal control reports and risk management reports.
- Reviewing and approving the company's policies on related party transactions, director and executive remuneration, and other matters.

The ARMC is required to report to the Board of Directors on its activities and findings. The ARMC's report is included in the company's annual general meeting materials.

The ARMC has held several meetings during the reporting period to discuss and oversee the company's financial reporting process, internal control systems, and risk management. The ARMC has reviewed and approved the company's annual financial statements and interim financial reports, and has reviewed and approved the company's internal control reports and risk management reports.

The ARMC has also reviewed and approved the company's policies on related party transactions, director and executive remuneration, and other matters. The ARMC has also reviewed and approved the company's annual general meeting resolutions.

The ARMC has also reviewed and approved the company's annual general meeting resolutions. The ARMC has also reviewed and approved the company's annual general meeting resolutions.

VIII. Shareholders' Rights

(I) Convening of an extraordinary general meeting by shareholders

According to the provisions of the Companies Act, 2013, a company shall convene an extraordinary general meeting if the following conditions are met:

- The meeting shall be convened if the shareholders holding not less than 10% of the paid-up share capital of the company, or such higher percentage as may be specified in the articles of association, have made a request in writing to the Board of Directors to convene the meeting.
- The meeting shall be convened if the Board of Directors has failed to convene a meeting within a period of 21 days from the date of the receipt of such request.
- The meeting shall be convened if the shareholders holding not less than 10% of the paid-up share capital of the company, or such higher percentage as may be specified in the articles of association, have made a request in writing to the Board of Directors to convene the meeting.
- The meeting shall be convened if the Board of Directors has failed to convene a meeting within a period of 21 days from the date of the receipt of such request.

The meeting shall be convened by the Board of Directors or by the shareholders holding not less than 10% of the paid-up share capital of the company, or such higher percentage as may be specified in the articles of association, if the Board of Directors has failed to convene a meeting within a period of 21 days from the date of the receipt of such request.

(II) Putting enquiry to the Board by shareholders

According to the provisions of the Companies Act, 2013, a shareholder has the right to put an enquiry to the Board of Directors if the following conditions are met:

- The shareholder shall be entitled to put an enquiry to the Board of Directors if the enquiry relates to the affairs of the company.
- The shareholder shall be entitled to put an enquiry to the Board of Directors if the enquiry is made in writing to the Board of Directors.
- The shareholder shall be entitled to put an enquiry to the Board of Directors if the enquiry is made within a period of 30 days from the date of the receipt of such request.

The Board of Directors shall be bound to answer the enquiry if the following conditions are met:

- The enquiry shall be made in writing to the Board of Directors.
- The enquiry shall be made within a period of 30 days from the date of the receipt of such request.
- The enquiry shall be made by a shareholder who is entitled to put an enquiry to the Board of Directors.

XII. Code of Conduct Regarding Securities Transactions by Directors and Supervisors

The Board of Directors has adopted a Code of Conduct Regarding Securities Transactions by Directors and Supervisors. The Code of Conduct Regarding Securities Transactions by Directors and Supervisors is intended to ensure that the Company's directors and supervisors do not engage in securities transactions that may result in conflicts of interest with the Company's interests.

The Code of Conduct Regarding Securities Transactions by Directors and Supervisors is applicable to all directors and supervisors of the Company. The Code of Conduct Regarding Securities Transactions by Directors and Supervisors is intended to ensure that the Company's directors and supervisors do not engage in securities transactions that may result in conflicts of interest with the Company's interests.

XIII. Auditors

The Board of Directors has adopted a Code of Conduct Regarding Securities Transactions by Directors and Supervisors. The Code of Conduct Regarding Securities Transactions by Directors and Supervisors is intended to ensure that the Company's directors and supervisors do not engage in securities transactions that may result in conflicts of interest with the Company's interests.

The Board of Directors has adopted a Code of Conduct Regarding Securities Transactions by Directors and Supervisors. The Code of Conduct Regarding Securities Transactions by Directors and Supervisors is intended to ensure that the Company's directors and supervisors do not engage in securities transactions that may result in conflicts of interest with the Company's interests.

XIV. Risk Management and Internal Control

The Board of Directors has adopted a Code of Conduct Regarding Securities Transactions by Directors and Supervisors. The Code of Conduct Regarding Securities Transactions by Directors and Supervisors is intended to ensure that the Company's directors and supervisors do not engage in securities transactions that may result in conflicts of interest with the Company's interests.

Corporate Governance Report

The Board of Directors is committed to ensuring the company's long-term success and the interests of all stakeholders. This report details the Board's composition, structure, and the various committees that oversee the company's operations. The Board members are all independent non-executive directors, ensuring a high level of objectivity and integrity in their decision-making. The Board has established a robust framework for corporate governance, which is regularly reviewed and updated to reflect the latest best practices and regulatory requirements. This framework includes a set of principles and a code of conduct that guide the company's actions and interactions with its stakeholders.

The Board's primary responsibility is to set the company's strategic direction and to monitor and review the company's performance against its strategic goals. The Board also oversees the company's financial performance and ensures that the company has adequate resources to achieve its objectives. The Board is supported by several committees, including the Audit Committee, the Remuneration Committee, and the Nominations and Governance Committee. These committees are responsible for monitoring and reporting to the Board on specific areas of the company's operations, such as financial reporting, executive remuneration, and the nomination of directors.

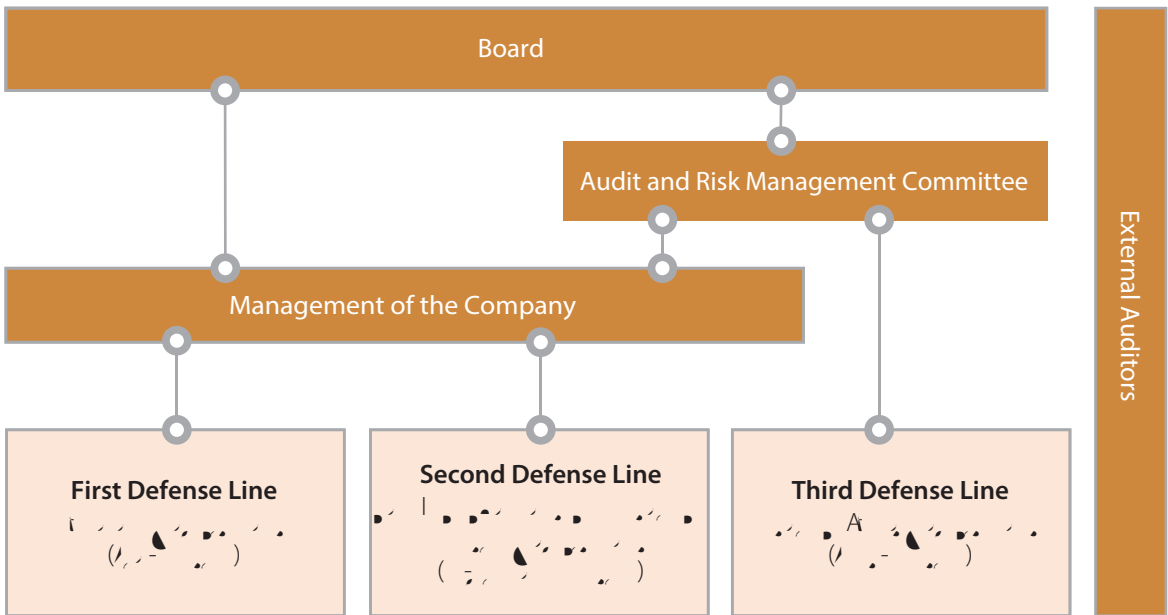

The Board has a diverse mix of skills and experiences, which enables it to make informed decisions on a wide range of issues. The Board members are all highly qualified and experienced professionals, with a track record of leadership in their respective fields. The Board also has a strong understanding of the company's business and the industry in which it operates. This expertise and experience enable the Board to effectively oversee the company's operations and to ensure that the company is well-positioned to achieve its long-term success.

The Board is committed to maintaining high standards of corporate governance and to ensuring that the company's actions are transparent and accountable to its stakeholders. The Board has established a robust system of internal controls and risk management, which is designed to identify and mitigate the company's key risks. The Board also has a strong focus on environmental, social, and governance (ESG) issues, and has established a framework for managing these issues. This framework includes a set of principles and a code of conduct that guide the company's actions and interactions with its stakeholders.

The Board is confident that its strong governance framework and the expertise of its members will enable the company to achieve its long-term success and to create value for all stakeholders. The Board will continue to monitor and review the company's performance and to ensure that it remains well-positioned to meet the challenges of the future. The Board is committed to maintaining high standards of corporate governance and to ensuring that the company's actions are transparent and accountable to its stakeholders.

Corporate Governance Report

XVI. Corporate Culture

Corporate culture is the set of shared values, beliefs, and behaviors that shape the way an organization operates. It is the foundation upon which a company's success is built. A strong corporate culture can attract and retain top talent, foster innovation, and drive long-term growth. At the same time, a weak or toxic culture can lead to high turnover, low productivity, and reputational damage. Therefore, it is essential for organizations to define and nurture a positive corporate culture that aligns with their mission and vision.

Our corporate culture is centered around the following core values: integrity, transparency, respect, and innovation. We believe in treating all employees with fairness and dignity, and we encourage open communication and collaboration. We also value diversity and inclusion, as we believe that different perspectives lead to better solutions. Innovation is at the heart of our business, and we encourage our employees to think creatively and take calculated risks. Finally, we are committed to ethical conduct and transparency in all our business dealings.

To ensure that our corporate culture is embedded in our operations, we have implemented several initiatives. We have established a code of ethics that outlines our expectations for all employees. We also provide regular training and development opportunities to help our employees understand and live our values. Additionally, we have created a system of incentives and recognition that rewards employees who demonstrate exceptional performance and embody our corporate culture. We also encourage our employees to provide feedback and share their ideas for improving our culture.

We believe that a strong corporate culture is a key driver of our success. We are committed to continuously evaluating and refining our culture to ensure it remains relevant and effective in a rapidly changing business environment. We invite all our stakeholders to join us in this journey and help us create a positive and thriving corporate culture.

The Board of Directors also approved the appointment of Mr. [Name] as the Chairman of the Sustainability Committee, effective from 15 June 2017.

I. AUDITOR'S REPORT

KPMG HuaZhen ShenZi No. 2404657

The Shareholders of CRRC Corporation Limited:

I. OPINION

We have audited the accompanying financial statements of CRRC Corporation Limited ("CRRC"), which comprise the consolidated and company balance sheets as at 31 December 2023, the consolidated and company income statements, the consolidated and company cash flow statements, the consolidated and company statements of changes in shareholders' equity for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the consolidated and company financial position of CRRC as at 31 December 2023, and the consolidated and company financial performance and cash flows of CRRC for the year then ended in accordance with Accounting Standards for Business Enterprises issued by the Ministry of Finance of the People's Republic of China.

II. BASIS FOR OPINION

We conducted our audit in accordance with China Standards on Auditing for Certified Public Accountants ("CSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of CRRC in accordance with the China Code of Ethics for Certified Public Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

III. KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

I. AUDITOR'S REPORT *(continued)*

KPMG HuaZhen ShenZi No. 2404657

Revenue recognition	
Please refer to the accounting policy described in Note 25 under "Significant Accounting Policies and Accounting Estimates", as well as Note "53. Revenue and operating costs" under "Notes of Consolidated Financial Statements" and Note "4. Revenue and operating costs" under "XVIII. Notes to the Key Items in the Company's Financial Statements" to the financial statements.	
The Key Audit Matter (Continued)	How the matter was addressed in our audit
We identified the cut-off risk arising from revenue recognition as a key audit matter, because revenue is one of the Group's key performance indicators and there may be cases of early or delayed revenue recognition by the management to meet targets or expectations.	<p>(5) Selecting revenue transactions recorded before and after the balance sheet date, inspecting supporting documents related to revenue recognition, and evaluating whether the relevant revenue was recorded in the appropriate accounting period;</p> <p>(6) Reviewing revenue accounting entries recorded after the balance sheet date to identify whether there was any significant sales return; if any, checking against the relevant supporting documents to evaluate whether the relevant revenue was recorded in the appropriate accounting period;</p> <p>(7) Selecting revenue accounting entries that meet specific risk criteria during the year and reviewing the relevant supporting documents.</p>

I. AUDITOR'S REPORT *(continued)*

KPMG HuaZhen ShenZi No. 2404657

IV. OTHER INFORMATION

I. AUDITOR'S REPORT *(continued)*

KPMG HuaZhen ShenZi No. 2404657

As part of an audit in accordance with CSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- (3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (4) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on CRRC's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause CRRC to cease to continue as a going concern.
- (5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (6) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within CRRC to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

I. AUDITOR'S REPORT *(continued)*

KPMG HuaZhen ShenZi No. 2404657

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

II. FINANCIAL STATEMENTS

The accompanying financial statements are English translations of the financial statements prepared under accounting principles and practices generally accepted in the People's Republic of China. These financial statements are not intended to present the balance sheet and results of operations and cash flows in accordance with accounting principles and practices generally accepted in other countries and jurisdictions. In case the English version does not conform to the Chinese version, the Chinese version prevails.

III. BASIC INFORMATION ABOUT THE COMPANY

1 General information

CSR Corporation Limited (“CSR”) was incorporated in the PRC on 28 December 2007 as a joint stock company with limited liability under the Company Law of the PRC. CSR’s A shares were listed on the Shanghai Stock Exchange (the “SSE”) on 18 August 2008 and CSR’s H shares were listed on the main board of The Stock Exchange of Hong Kong Limited on 21 August 2008. CSR non-public issued A-share ordinary shares in 2012, and the ordinary shares increased to 13,803,000,000 shares after the non-public issuing.

China CNR Corporation Limited (“CNR”) was incorporated in the PRC on 26 June 2008 as a joint stock company with limited liability under the Company Law of the PRC. CNR made an initial public offering of A shares which were listed on the SSE on 29 December 2009. H shares of CNR were listed on the Main Board of the HKSE on 22 May 2014. As at 31 December 2014, CNR has issued total shares of 12,259,780,303.

CSR and CNR published a joint announcement on 30 December 2014, announcing that the two companies entered into a merger agreement with respect to a merger proposal (“2015 Business Combination”). CSR and CNR would merge by CSR issuing, on the basis of a single exchange ratio, CSR A shares and CSR H shares to holders of CNR A shares and CNR H shares respectively in exchange for all of the issued shares of CNR. The exchange proportion was 1:1.10, meaning that each CNR A share should be exchanged for 1.10 CSR A shares to be issued by CSR and that each CNR H share should be exchanged for 1.10 CSR H shares to be issued by CSR. As all of the conditions of the above agreement as specified in the merger agreement had been satisfied, the merger agreement became effective on 28 May 2015. CSR issued 2,347,066,040 H shares and 11,138,692,293 A shares on 26 May 2015 and 28 May 2015 respectively. CNR A shares were deregistered from the SSE and CNR H shares were deregistered from the Main Board of HKSE. After the completion of the merger, CSR assumed all the assets, liabilities and business of CNR and CNR was deregistered according to law. On 1 June 2015, the name of CSR was changed from “CSR Corporation Limited” to “CRRC Corporation Limited” (“CRRC” or the “Company”).

On 5 August 2015, the respective holding companies of the Company, namely CSR Group (formerly China South Locomotive and Rolling Stock Industry (Group) Corporation) and China Northern Locomotive & Rolling Stock Industry (Group) Corporation (“CNR Group”) concluded the Merger Agreement by which CNR Group merged CSR Group with the latter deregistered and then was renamed to CRRC Group (later renamed to CRRC Group Co., Ltd., “CRRCG”). All assets, liabilities, business, employees, contracts, qualifications and other rights and obligations of CSR Group shall be inherited by CRRCG after the merger.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

III. BASIC INFORMATION ABOUT THE COMPANY *(continued)*

1 General information *(continued)*

As proposed and approved in the Company's 2015 annual general meeting of shareholders as well as approved by the China Securities Regulatory Commission ("CSRC") on Reply on the Approval of Non-public Issuance of Stocks by CRRC Corporation Limited (Zheng Jian Xu Ke [2016] No. 3203), the Company completed the non-public offering 1,410,105,755 A shares with par value RMB1.00 each to specific investors in January 2017. The number of share capital has increased to 28,698,864,088, and CRRC Group remains the controlling shareholder of the Company.

The address of the Company's registered office is No.16 Central West Fourth Ring Road, Haidian District, Beijing, the PRC.

The Company and its subsidiaries (collectively the "Group") are principally engaged in the research and development, design, manufacture, refurbishment and service of locomotives (including multiple units), metro cars, engineering machinery, mechanical and electric equipment, electronic equipment and related components products, electronic appliances and environmental protection equipment, as well as sales, technical services and equipment leasing of related products; information consultation; industrial investment of the above business; assets management; imports and exports.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

III. BASIC INFORMATION ABOUT THE COMPANY *(continued)*

2 Scope of consolidated financial statement *(continued)*

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

IV. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

1 Basis of preparation

The financial statements have been prepared on the going concern basis.

The Group has adopted the Accounting Standards for Business Enterprises and relative regulations (“ASBE”) issued by the Ministry of Finance (the “MOF”).

According to Acceptance of Mainland Accounting and Auditing Standards and Mainland Audit Firms for Mainland Incorporated Companies Listed in Hong Kong and other relevant Security Listing Rules Amendments issued by the Hong Kong Stock Exchange (Hong Kong Listing Rules) in December 2010, also referring to the relevant provisions issued by the MoF and the China Securities Regulatory Commission (“CSRC”), and approved by the 10th meeting of the second board of directors of the Company and the General Meeting of the Company, from 2019 fiscal year, the Company no longer provides the financial statements prepared in accordance with the ASBE and the International Financial Reporting Standards (the “IFRS”) separately to stockholders of A shares and H shares. Instead, the Company provides the financial statements prepared in accordance with the ASBE to all stockholders, taking the relevant disclosure standards of Hong Kong Companies Ordinance and Hong Kong Listing Rules into consideration.

The financial data in this report are prepared based on ASBE.

In addition, the financial statements of the Company also comply with the disclosure requirements of financial statements and notes in the Information Disclosure and Preparation Rules for Companies Offering Securities to the Public No. 15 – General Provisions on Financial Reporting revised by the CSRC in 2023.

2 Going concern

The Group evaluated the going concern capability for the next twelve months from 31 December 2023 and found no matters or circumstances that could raise serious doubts about the going concern capability. These financial statements have been prepared on a going concern basis.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

1 Statement of compliance with the ASBE

These financial statements are in compliance with the ASBE to truly and completely reflect consolidated and the Company's financial position as at 31 December 2023, and consolidated and the Company's operating results, changes in shareholders' equity and cash flows for the 12 month period then ended.

2 Accounting period

The Company has adopted the calendar year as its accounting year, i.e. from 1 January to 31 December.

3 Business cycle

Business cycle refers to the period since purchasing assets for production till the realisation of cash or cash equivalents. The Company's business cycle is 12 months in general.

4 Reporting currency

The functional currency of the Company is RMB and is adopted to prepare the financial statements. Except for particular explanations, all items are presented in RMB'000. The functional currency of the Company's subsidiaries, joint ventures and associates is selected based on economic environment where they operate.

5 Method used to determine the materiality threshold and the basis for selection

Item	Materiality threshold
Material provision for bad and doubtful debts of accounts receivable on an individual basis	Amount over or equal to 0.50% of the owner's equity attributable to the parent company audited in the latest period
Material provision for bad and doubtful debts of accounts receivable on an individual basis	Amount over or equal to 0.50% of the owner's equity attributable to the parent company audited in the latest period
Material construction projects in progress	Amount over or equal to 0.50% of the owner's equity attributable to the parent company audited in the latest period
Material accounts payable/other payables aged over 1 year or overdue	Amount over or equal to 0.50% of the owner's equity attributable to the parent company audited in the latest period
Material joint ventures or associates	The carrying amount of long-term equity investments in joint ventures or associates is over or equal to 2.00% of the total equity attributable to shareholders of the company audited in the latest period

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

6 The accounting treatment of business combinations involving enterprises under common control and business combinations not involving enterprises under common control

A business combination is a transaction or event that brings together two or more separate entities into one reporting entity. Business combinations includes business combinations involving enterprises under common control and business combinations involving enterprises not under common control.

A transaction constitutes a business combination when the Group obtains control of one or more entities (or a group of assets or net assets). Business combination is classified as either business combinations involving enterprises under common control or business combinations involving enterprises not under common control.

For a transaction involving enterprises not under common control, the acquirer determines whether acquired set of assets constitute a business. The Group may elect to apply the simplified assessment method, the concentration test, to determine whether an acquired set of assets is not a business. If the concentration test is met, the set of assets is determined not to be a business. If the concentration test is not met, the Group shall perform the assessment according to the guidance on the determination of a business.

When the set of assets the group acquired does not constitute a business, acquisition costs should be allocated to each identifiable assets and liabilities at their acquisition date fair values. It is not required to apply the accounting of business combination described as below.

(1) Business combinations involving enterprises under common control

A business combination involving entities under common control is a business combination in which all of the combining entities are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. For a business combination involving enterprises under common control, on the combination date, the party that obtains control of another entity in the combination is the acquirer, while the other entity is the acquiree. The combination date is the date on which the acquirer obtains control of the acquiree.

Assets and liabilities obtained shall be measured at their respective carrying amounts as recorded by the combining entities at the date of the combination. The difference between the carrying amount of the net assets obtained and the carrying amount of the consideration paid for the combination (or the aggregate par value of the shares issued as consideration) is adjusted to share premium under capital reserve. If the capital reserve is not sufficient to absorb the difference, any excess shall be adjusted against retained earnings.

Costs that are directly attributable to the combination are charged to profit or loss in the period in which they are incurred.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

6 The accounting treatment of business combinations involving enterprises under common control and business combinations not involving enterprises under common control *(continued)*

(2) Business combinations not involving enterprises under common control and goodwill

A business combination involving entities not under common control is a business combination in which all of the combining entities are not ultimately controlled by the same party or parties both before and after the business combination.

The cost of combination is the aggregate of fair values of the assets given, liabilities incurred or assumed, and equity instruments issued by the acquirer in exchange for control of the acquiree. The intermediary expenses incurred by the acquirer in respect of auditing, legal services, valuation and consultancy services, etc. and other associated administrative expenses attributable to the business combination are recognised in profit or loss when they are incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities acquired by the acquirer in a business combination involving enterprises not under common control shall be measured at fair value at the date of acquisition.

Where the cost of combination exceeds the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is treated as an asset and recognised as goodwill, which is measured at cost on initial recognition. Where the cost of combination is less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the acquirer firstly reassesses the measurement of the fair values of the acquiree's identifiable assets, liabilities and contingent liabilities and measurement of the cost of combination. If after that reassessment, the cost of combination is still less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the acquirer recognises the remaining difference immediately in profit or loss for the current year.

The goodwill arising on a business combination should be separately disclosed in the consolidated financial statement and measured by the amount of costs deducted by the accumulative provision for impairment.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

7 Criteria of control and basis for preparation of consolidated financial statements

The scope of consolidation in the consolidated financial statements is determined on the basis of control. Control is achieved when the company has power over the investee; is exposed or has rights to variable returns from its involvement with the investee, and has the ability to use its power to affect its returns. A subsidiary is an enterprise that is controlled by the Company. The financial positions, operating results, and cash flow of subsidiaries are included in consolidated financial statement from acquisition date to termination date of control.

For subsidiaries acquired through a business combination involving enterprises under common control, they will be fully consolidated into consolidated financial statements from the date on which subsidiary was ultimately under common control by the same party or parties. Their operating results and cash flows from the beginning of the earliest reporting period are included in the consolidated income statement and consolidated statement of cash flows appropriately.

For a subsidiary acquired through a business combination involving enterprises not under common control, the acquired subsidiaries are consolidated in consolidated financial statement on the basis of fair value of identifiable assets and liabilities recognised on the date of acquisition.

The significant accounting policies and accounting periods adopted by the subsidiaries are determined based on the uniform accounting policies and accounting periods set out by the Company.

All significant intra-group balances and transactions are eliminated on consolidation.

The portion of subsidiaries' equity, profits or losses and comprehensive income that is attribute to their non-controlling shareholders is separately presented under "shareholders' equity" in the consolidated balance sheet, and "net profit" and "total comprehensive income" in the consolidated income statement.

When the amount of loss for the period attributable to the non-controlling shareholders of a subsidiary exceeds the non-controlling shareholders' portion of the opening balance of shareholders' equity of the subsidiary, the excess amount is still allocated against non-controlling interests.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

7 Criteria of control and basis for preparation of consolidated financial statements *(continued)*

Acquisition of non-controlling interests or disposal of interest in a subsidiary that does not result in the loss of control over the subsidiary is accounted for as equity transactions. The carrying amounts of the Company's interests and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. The difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is adjusted to capital reserve under shareholders' equity. If the capital reserve is not sufficient to absorb the difference, the excess is adjusted against retained earnings.

When the Group loses control over a subsidiary due to disposal of certain equity interest or other reasons, any retained interest is re-measured at its fair value at the date when control is lost. The difference between (i) the aggregate of the consideration received on disposal and the fair value of any retained interest and (ii) the share of the former subsidiary's net assets cumulatively calculated from the acquisition date according to the original proportion of ownership interest is recognized as investment income in the period in which control is lost, and offset goodwill simultaneously. Other comprehensive income associated with investment in the former subsidiary is reclassified to investment income in the period in which control is lost.

8 Classification of joint arrangements and accounting methods for joint management

The joint arrangement includes joint operations and joint ventures. The classification is determined by considering the structure, legal form and contract terms of the arrangement according to the rights and obligations of the joint party in the joint arrangement. Joint operation refers to whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint venture arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

The Group's joint arrangements are joint ventures, which are accounted for using the equity method, and are set out in Note V.14.

9 Recognition criteria of cash and cash equivalent

Cash equivalents are the Group's short-term (it generally expires within three months from the date of purchase), highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

10 Translation of transactions and financial statements denominated in foreign currencies

For foreign currency transactions, the Group translates the amount of foreign currency into RMB.

Foreign currency transactions are initially recorded using the functional currency spot exchange rate at the date of the transactions. At the balance sheet date, foreign currency monetary items are translated into RMB using the spot exchange rate at the balance sheet date. Exchange differences arising from the differences between the spot exchange rates prevailing at the balance sheet date and those on initial recognition or at the previous balance sheet date are recognised in profit or loss for the period, except that (i) exchange differences related to a specific-purpose borrowing denominated in foreign currency that qualify for capitalisation are capitalised as part of the cost of the qualifying asset during the capitalisation period; (ii) exchange differences arising from changes in the carrying amounts (other than the amortised cost) of monetary items measured at fair value through other comprehensive income are recognised as other comprehensive income.

Foreign currency non-monetary items measured at historical cost are translated into the amounts in functional currencies at the spot exchange rates at the transaction dates. Foreign currency nonmonetary items measured at fair value are re-translated at the spot exchange rate on the date the fair value is determined. Difference between the re-translated functional currency amount and the original functional currency amount is treated as changes in fair value (including changes of exchange rate) and is recognised in profit and loss or as other comprehensive income.

For the purpose of preparing the consolidated financial statements, financial statements of a foreign operation are translated from the foreign currency into RMB using the following method: all the assets and liability items in the balance sheet are translated using the spot exchange rates at the balance sheet date, shareholders' equity items except of "retained earnings" are translated at the spot exchange rates at the date on which such items arose; income and expense items in the income statement are translated at the average exchange rates during the period in which the transaction occurs. Translation differences of financial statements denominated in foreign currencies arising hereby are recognised as other comprehensive income. When a foreign operation is disposed of, other comprehensive income associated with such foreign operation is transferred to profit or loss for the period in which it is disposed of. In case of a disposal or other reason that leads to the reduction of the proportion of foreign operation interests held but does not result in the Group losing control of a foreign operation, the proportionate share of accumulated exchange differences arising on translation of financial statements are re-attributed to non-controlling interests and are not recognised in profit and loss. For partial disposals of equity interests in foreign operations which are associates or joint ventures, the proportionate share of the accumulated exchange differences arising on translation of financial statements of foreign operations is reclassified to profit or loss.

Foreign currency cash flows and the cash flows of foreign subsidiaries are translated using the average exchange rate for the year during which the cash flows occur. The effect of exchange rate changes on cash and cash equivalents is regarded as a reconciling item and presented separately in the cash flow statement as effect of foreign exchange rate changes on cash and cash equivalents.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments

Financial instruments include cash at bank and on hand, investments in debt and equity securities other than those classified as long-term equity investments (see Note V.14), receivables, payables, loans and borrowings, debentures payable and share capital.

(1) Recognition and initial measurement of financial assets and financial liabilities

A financial asset or financial liability is recognised in the balance sheet when the Group becomes a party to the contractual provisions of a financial instrument.

A financial asset or financial liability is measured initially at fair value. For financial assets and financial liabilities measured at fair value through profit or loss, any related directly attributable transaction costs are charged to profit or loss; for other categories of financial assets and financial liabilities, any related directly attributable transaction costs are included in their initial costs. Accounts receivables that do not have a significant financing component or do not account for the significant financing component in one-year-or-less contracts under the practical expedient are initially measured at the transaction price in accordance with Note V.25.

(2) Classification and subsequent measurement of financial assets

(a) Classification of financial assets

The classification of financial assets is generally based on the business model under which a financial asset is managed and its contractual cash flow characteristics. On initial recognition, a financial asset is classified as measured at amortised cost, at fair value through other comprehensive income ("FVOCI"), or at fair value through profit or loss ("FVTPL").

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held under a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(2) Classification and subsequent measurement of financial assets *(continued)*

(a) Classification of financial assets *(continued)*

A financial asset is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held under a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis, and the instrument meets the definition of equity from the perspective of the issuer.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(2) Classification and subsequent measurement of financial assets *(continued)*

(b) Subsequent measurement of financial assets

– Financial assets at FVTPL

These financial assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss unless the financial assets are part of a hedging relationship.

– Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. A gain or loss on a financial asset that is measured at amortised cost and that is not part of a hedging relationship should be recognised in profit or loss when the financial asset is derecognised, reclassified, amortised under the effective interest method or when an impairment gain or loss is recognised.

– Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, and impairment and foreign exchange gains and losses are recognised in profit or loss. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

– Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to retained earnings.

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(3) Classification and subsequent measurement of financial liabilities

Financial liabilities are classified as measured at FVTPL or as financial liabilities measured at amortised cost.

– **Financial liabilities at FVTPL**

A financial liability is classified as at FVTPL if it is classified as held-for-trading (including derivative financial liabilities) or if it is designated as such on initial recognition.

Financial liabilities at FVTPL are subsequently measured at fair value; and net gains and losses, including any interest expense, are recognised in profit or loss, unless the financial liabilities are part of a hedging relationship.

– **Financial liabilities at amortised cost**

These financial liabilities are subsequently measured at amortised cost using the effective interest method.

(4) Offsetting

Financial assets and financial liabilities are generally presented separately in the balance sheet, and are not offset. However, a financial asset and a financial liability are offset and the net amount is presented in the balance sheet when both of the following conditions are satisfied:

- The Group currently has a legally enforceable right to set off the recognised amounts;
- The Group intends either to settle on a net basis, or to realise the financial asset and settle the financial liability simultaneously.

(5) Derecognition of financial assets and financial liabilities

A financial asset is derecognised when one of the following conditions is met:

- the Group's contractual rights to the cash flows from the financial asset expire;
- the financial asset has been transferred and the Group transfers substantially all of the risks and rewards of ownership of the financial asset; or
- the financial asset has been transferred; and although the Group neither transfers nor retains substantially all of the risks and rewards of ownership of the financial asset, it does not retain control over the transferred asset.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(5) Derecognition of financial assets and financial liabilities *(continued)*

Where a transfer of a financial asset in its entirety meets the criteria for derecognition, the difference between the two amounts below is recognised in profit or loss:

- the carrying amount of the financial asset transferred measured at the date of derecognition;
- the sum of the consideration received from the transfer and, when the transferred financial asset is a debt investment at FVOCI, any cumulative gain or loss that has been recognised directly in other comprehensive income for the financial asset derecognised.

The Group derecognises a financial liability (or part of it) only when its contractual obligation (or part of it) is extinguished.

(6) Impairment

The Group recognises loss allowances for expected credit loss (ECL) on:

- financial assets measured at amortised cost;
- contract assets; and
- lease receivables.

Financial assets measured at fair value, including debt investments or equity securities at FVTPL, equity securities designated at FVOCI and derivative financial assets, are not subject to the ECL assessment.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(6) Impairment *(continued)*

Measurement of ECLs *(continued)*

Loss allowances for bills receivable, accounts receivable, receivables under financing and contract assets arising from ordinary business activities such as sale of goods and provision of services, as well as lease receivables arising from lease transactions are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the balance sheet date.

Except for bills receivable, accounts receivable, receivables under financing, contract assets, and lease receivables, the Group measures loss allowances at an amount equal to 12-month ECLs for the following financial instruments, and at an amount equal to lifetime ECLs for all other financial instruments:

- Financial instruments that have been determined to have low credit risk at the balance sheet date;
- Financial instruments for which credit risk has not increased significantly since initial recognition.

Provisions for bad and doubtful debts arising from receivables

(a) Categories of groups for collective assessment based on credit risk characteristics and basis for determination

Bills receivable	Based on the different credit risk characteristics of acceptors, the Group classifies bills receivable into two groups: bank acceptance bills and commercial acceptance bills.
Accounts receivable	According to the different credit risk characteristics of customers, the Group divides accounts receivable into three portfolios: central enterprise customer portfolio, local government/local state-owned enterprise customer portfolio and other customer portfolios.
Other receivables	Based on the nature of receivables and the credit risk characteristics of different counterparties, the Group classifies other receivables into 3 groups, specifically: the group of current accounts receivable and prepaid expenses, the group of deposit receivable and the group of others.
Contract assets	According to the different credit risk characteristics of customers, the Group divides accounts receivable into three portfolios: central enterprise customer portfolio, local government/local state-owned enterprise customer portfolio and other customer portfolios.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(6) Impairment *(continued)*

Provisions for bad and doubtful debts arising from receivables *(continued)*

(b) Criteria for individual assessment

Bills receivable, accounts receivable, other receivables, and contract assets are usually assessed collectively as a group based on credit risk characteristics to make provisions. When a counterparty is significantly different from other counterparties in the group in terms of credit risk characteristics, or if there has been a significant change in its credit risk characteristics, the individual approach is adopted for receivables due from this counterparty.

Financial instruments that have low credit risk

The credit risk on a financial instrument is considered low if the financial instrument has a low risk of default, the borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the balance sheet date with that assessed at the date of initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort, including forward-looking information. In particular, the following information is taken into account:

- failure to make payments of principal or interest on their contractual due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(6) Impairment *(continued)*

Credit-impaired financial assets

At each balance sheet date, the Group assesses whether financial assets carried at amortised cost and debt investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulties of the issuer or debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- for economic or contractual reasons relating to the debtor's financial difficulties, the Group having granted to the debtor a concession that it would not otherwise consider;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for the financial asset because of financial difficulties of the issuer or debtor.

Presentation of allowance for ECL

ECLs are remeasured at each balance sheet date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt investments that are measured at FVOCI, the loss allowance is recognised in other comprehensive income and not deducted from the carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. A write-off constitutes a derecognition event. This generally occurs when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(7) Equity instruments

The consideration received from the issuance of equity instruments net of transaction costs is recognised in shareholders' equity. Consideration and transaction costs paid by the Company for repurchasing self-issued equity instruments are deducted from shareholders' equity.

When the Company repurchases its own shares, those shares are treated as treasury shares. The entire repurchase expenditure is recorded as the cost of the treasury shares in the reference register. Treasury shares are excluded from profit distributions and are presented as a deduction from shareholders' equity on the balance sheet.

When treasury shares are cancelled, the share capital should be reduced to the extent of the total par value of the treasury shares cancelled. Where the cost of the treasury shares cancelled exceeds the total par value, the excess is deducted from capital reserve (share premium), surplus reserve and retained earnings sequentially. If the cost of treasury shares cancelled is less than the total par value, the difference is credited to the capital reserve (share premium).

When treasury shares are disposed of, any excess of proceeds above cost is recognised in capital reserve (share premium); otherwise, the shortfall is deducted against capital reserve (share premium), surplus reserve and retained earnings sequentially.

(8) Convertible instruments

– Convertible instruments containing an equity component

Convertible instruments issued by the Group that can be converted to equity instruments of the Group, where a fixed number of equity instruments is issued in exchange for a fixed amount of consideration at the time of conversion, are accounted for as compound financial instruments containing both liability and equity components.

The initial carrying amount of a compound financial instrument is allocated to its equity and liability components. The Group first determines the fair value of the liability component which includes the fair value of any embedded derivatives other than the equity component. The amount allocated to the equity component is the residual amount after deducting the fair value of the liability component from the fair value of the entire compound instrument. Transaction costs that relate to the issue of a compound financial instrument are allocated to the liability and equity components of the instrument in proportion to the allocation of proceeds.

Subsequent to initial recognition, the liability component is measured at amortised cost using the effective interest method, unless it is designated upon recognition as measured at fair value through profit or loss. The equity component is not re-measured.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11 Financial Instruments *(continued)*

(8) Convertible instruments *(continued)*

– Convertible instruments containing an equity component *(continued)*

If the convertible instrument is converted, the liability component is transferred to equity and the equity component remains as equity, both of which are transferred to the relevant captions in equity. If the convertible instrument is redeemed, the consideration paid for the redemption and the transaction costs that relate to the redemption are allocated to the liability and equity components. The method used to allocate the consideration and transaction costs is consistent with that used for the issue of the convertible instrument. After allocating the consideration and transaction costs, the relevant difference between the allocated amount and carrying amount of the liability component is recognised in profit and loss, and the relevant difference between the allocated amount and carrying amount of the equity component is directly recognised in equity.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

12 Inventories

(1) Categories

Inventories include raw materials, work in progress, finished goods, commissioned processing materials and turnover materials, etc.

Inventories are initially measured at cost. Cost of inventories include purchase costs, processing cost and other costs.

(2) Measurement method of cost of inventories

The actual costs of inventories are determined on specific identification, first-in, first-out, or weighted average methods depending on business types.

(3) Inventory count system

The perpetual inventory system is maintained for stock system.

(4) Amortisation method for low-value consumables and packaging materials.

Reusable materials include low cost and short-lived consumables, packaging materials, etc., which are amortised using either one-off amortisation method or multiple-stage amortisation method.

(5) Criteria and method for provision for obsolete inventories.

At the balance sheet date, inventories are measured at the lower of cost and net realisable value. If the cost of inventories is higher than the net realisable value, a provision for decline in value of inventories is recognised in profit or loss. If factors that previously resulted in the provision for decline in value of inventories no longer exist, the amount of the write-down is reversed. The reversal is limited to the amount originally provided for the provision for the decline in value of inventories, and is recognised in profit or loss of the current period.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion, the estimated costs necessary to make the sale and relevant taxes. Net realisable value is determined on the basis of clear evidence obtained, and takes into consideration the purposes of holding inventories and effect of post balance sheet events.

For inventories that relate to a product series that is produced and marketed in the same geographical area, have the same or similar uses or purposes, and cannot be practicably evaluated separately from other items, provision for decline in value of inventories can be determined on an aggregate basis. Provision for decline in value of other inventories is made based on the excess of cost of inventory over its net realisable value on an item-by-item basis.

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

13 Assets held for sale and discontinued operations

(1) Recognition criteria and accounting treatment methods of non-current assets or disposal groups classified as held for sales.

Non-current assets and disposal groups are classified as held for sale category when the Group recovers the carrying amount through a sale (including an exchange of nonmonetary assets that has commercial substance) rather than continuing use.

Non-current assets or disposal groups classified as held for sale are required to satisfy both of the following conditions: (1) the asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset or disposal group; (2) the sale is highly probable, i.e. the Group has made a resolution about selling plan and obtained a confirmed purchase commitment and the sale is expected to be completed within one year.

The Group measures the non-current assets or disposal groups classified as held for sale at the lower of their carrying amount and fair value less costs to sell. Where the carrying amount is higher than the net amount of fair value less costs to sell, carrying amount should be reduced to the net amount of fair value less costs to sell, and such reduction is recognised in impairment loss of assets and included in profit or loss for the period. Meanwhile, provision for impairment of held-for-sale assets are made. When there is increase in the net amount of fair value of assets classified as held for sale less costs to sell at the balance sheet date, the original deduction should be reversed in impairment loss of assets recognised after the classification of held-for-sale category, and the reverse amount is included in profit or loss for the period.

Non-current assets classified as held-for-sale or disposal groups are not depreciated or amortised, interest and other costs of liabilities of disposal group classified as held for sale continue to be recognised.

(2) Recognition criteria and presentation method of discontinued operations

The Group classifies a separate component as a discontinued operation either upon disposal of the operation or when the operation meets the criteria to be classified as held for sale if it is separately identifiable and satisfies one of the following conditions:

- It represents a separate major line of business or a separate geographical area of operations;
- It is part of a single co-ordinated plan to dispose of a separate major line of business or a separate geographical area of operations;
- It is a subsidiary acquired exclusively with a view to resale.

Where an operation is classified as discontinued in the current period, profit or loss from continuing operations and profit or loss from discontinued operations are separately presented in the income statement for the current period. Profit or loss from continuing operation in the comparative income statement is re-presented as if the operation had been discontinued from the start of the comparative year.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

14 Long-term equity investments

(1) Judgment criteria for joint control and significant influence

Control is achieved when the investor has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns. Joint control is the contractually agreed sharing of control over an economic activity, and exists only when the strategic financial and operating policy decisions relating to the activity require the unanimous consent of the parties sharing control. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. When determining whether an investing enterprise is able to exercise control or significant influence over an investee, the effect of potential voting rights of the investee (for example, warrants and convertible debts) held by the investing enterprises or other parties that are currently exercisable or convertible shall be considered.

(2) Determination of investment cost

For a long-term equity investment acquired through a business combination involving enterprises under common control, the investment cost of the long-term equity investment is the share of the carrying amount of the shareholders' equity of the acquiree attributable to the ultimate controlling party at the date of combination. For a long-term equity investment acquired through business combination not involving enterprises under common control, the investment cost of the long-term equity investment is the cost of acquisition. For a business combination not involving enterprises under common control achieved in stages that involves multiple exchange transactions, the initial investment cost is carried at the aggregate of the carrying amount of the acquirer's previously held equity interest in the acquiree and the new investment cost incurred on the acquisition date. Except for long-term equity investment acquired through a business combination, other equity investment is initially measured at cost.

The expenses incurred by the acquirer in respect of auditing, legal services, valuation and consultancy services and

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

14 Long-term equity investments *(continued)*

(3) Subsequent measurement and recognition of profit or loss *(continued)*

(b) Long-term equity investment measured under the equity method

The Group measured investments in associates and joint ventures under the equity method. An associate is an entity over which the Group has significant influence, and a joint venture is an entity over which the Group has joint control along with other investors.

Under the equity method, where the initial investment cost of a long-term equity investment exceeds the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, no adjustment is made to the initial investment cost. Where the initial investment cost is less than the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, the difference is recognised in profit or loss for the period, and the cost of the long-term equity investment is adjusted accordingly.

Under the equity method, the Group recognises its share of the net profit or loss and other comprehensive income of the investee for the period as investment income or loss and other comprehensive income for the period. The Group recognises its share of the investee's net profit or loss based on the fair value of the investee's individual separately identifiable assets, etc. at the acquisition date after making appropriate adjustments to be confirmed with the Group's accounting policies and accounting period. Unrealised profits or losses resulting from the Group's transactions with its associates and joint ventures shall be eliminated when recognized investment income or loss to the extent that those attributable to the Group's equity interest. However, unrealised profits or losses resulting from the Group's transactions with its associates and joint ventures are recognised as investment income or loss to the extent that those attributable to the Group's equity interest are eliminated if the trading assets do not form a business. Unrealised losses are resulted from the Group's transactions with its associates and joint ventures, the impairment losses on the transferred assets are not eliminated. Changes in other equity of the investee other than net profit or loss, other comprehensive income and profit distribution shall be included in capital reserve, with the carrying amount of long-term equity investment correspondingly adjusted.

The Group discontinues recognising its share of net losses of the investee after the carrying amount of the long-term equity investment together with any long-term interests that in substance form part of its net investment in the investee is reduced to zero. If the Group has incurred obligations to assume additional losses of the investee, a provision is recognised according to the expected obligation, and recorded as investment loss for the period. Where net profits are subsequently realised by the investee, the Group resumes recognising its share of those profits only after its share of the profits exceeds the share of losses previously not recognised.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

14 Long-term equity investments *(continued)*

(3) Subsequent measurement and recognition of profit or loss *(continued)*

(c) Disposal of long-term equity investments

On disposal of a long-term equity investment, the difference between the proceeds actually received and receivable and the carrying amount is recognised in profit or loss for the period. For long-term equity investment measured under the equity method, the portion of other comprehensive income recognized before the Group had controlled over the investee under equity method or the financial assets recognition and measurement standard should be treated referring to the same fundamental of disposing related assets and liabilities.

(d) Methods of impairment assessment approach and provision for impairment are set out in Note V. 20.

15 Investment properties

The properties held by the Group for the purpose of earning rentals or for capital appreciation or for both purposes are categorised to investment property. The Group measures investment property under cost model, namely, investment properties are presented in balance sheet by cost deducting accumulated depreciation, amortisation and impairment loss. The investment properties are depreciated over its useful life by straight-line method after deducting estimated net residual value. The useful life, residual value rate and annual depreciation rate for various investment properties are as follows:

Item	Useful life (years)	Residual value rate (%)	Annual depreciation rate (%)
Buildings	20-50	3-5	1.90-4.85
Land use rights	50	–	2.00

If the Group has conclusive evidence that the purpose for holding properties has changed and if one of the following conditions is met, the investment properties shall be converted into other assets, or other assets shall be converted into investment properties:

- The purpose for holding the property is changed to self-use;
- The self-use land use rights are stopped self-using, and changed to held for earning rentals or capital appreciation;
- Self-use buildings stopped self-using, and changed to for renting.

Under the cost model, the carrying amounts of the buildings remain unchanged before and after the purpose change.

Methods of impairment assessment and provision for impairment are set out in Note V. 20.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

16 Fixed assets

(1) Recognition criteria

Fixed assets are tangible assets that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and have useful lives of more than one accounting year.

The initial cost of purchased fixed assets includes purchase cost, relevant taxes and expenses attributable to the asset incurred before it reaches ready-to-use condition. The initial cost of self-constructed fixed assets is recognised in accordance with Note V. 17. The components of fixed assets, which have various useful life or contribute economic benefits to the Group in different ways, or at different depreciation rate or via different depreciation methods, will be recognised as individual fixed assets by the Group. The subsequent expenditure of fixed assets (including amount paid for replacing certain component of fixed assets), is recognised into cost of fixed assets if it qualifies recognition criteria. Meanwhile, the carrying amount of replaced component is deducted. The expense relating to routine maintenance of fixed assets is included in profit or loss when it is incurred. Fixed assets are presented on the balance sheet at cost less accumulated depreciation and impairment losses.

(2) Depreciation method

Category	Depreciation method	Depreciation period (year)	Residual value rate (%)	Annual depreciation rate (%)
Buildings	Straight-line method	10-50	3-5	1.90-9.70
Machinery and equipment	Straight-line method	3-28	3-5	3.39-32.33
Office equipment and other equipment	Straight-line method	5-12	3-5	7.92-19.40
Transportation vehicles	Straight-line method	5-15	3-5	6.33-19.40

If a fixed asset is upon disposal or no future economic benefits are expected to be generated from its use or disposal, the fixed asset is derecognised. When a fixed asset is sold, transferred, retired or damaged, the amount of any proceeds on disposal of the asset net of the carrying amount and related taxes is recognised in profit or loss for the period. The Group reviews the useful life and estimated net residual value of a fixed asset and the depreciation method applied at least once at the end of each fiscal year, and makes adjustments when necessary. The Group does not make depreciation for overseas land ownership, which has no residual value.

(3) Methods of impairment assessment and provision for impairment are set out in Note V. 20.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

17 Construction in progress

Construction in progress is measured at its actual costs. The actual costs include various construction expenditures during the construction period, borrowing costs capitalised before it is ready for intended use and other relevant costs.

Construction in progress is transferred to a fixed asset when it is ready for intended use. For purchased fixed assets, if the purchased fixed assets do not need to be installed, they can reach the expected serviceable status after the purchase acceptance; if the purchased fixed assets need to be installed, they will reach the intended serviceable condition after the installation and commissioning meet the design requirements or the standards specified in the contract. The self-constructed fixed assets are transferred into fixed assets when the project is completed and reaches the expected serviceable condition.

For sale of products or by-products generated before a fixed asset reaches ready-to-use condition, the relevant income and cost shall be accounted for separately and included in the current profit and loss in accordance with the requirements of the Accounting Standards for Business Enterprises No. 14 – Revenue and the Accounting Standards for Business Enterprises No. 1 – Inventories.

Methods of impairment assessment and provision for impairment are set out in Note V. 20.

18 Borrowing Costs

Borrowing costs are interests and other costs incurred by the Group in connection with the borrowing of funds. Borrowing costs include interests, amortisation of discounts or premiums related to borrowings, ancillary costs incurred in connection with the arrangement of borrowings, and exchange differences arising from foreign currency borrowings.

The borrowing costs that are directly attributable to the construction or production of a qualifying asset are capitalised. The amounts of other borrowing costs incurred are recognised as an expense in the period in which they are incurred. Qualifying assets are assets that necessarily take a substantial period of time for construction or production to get ready for their intended use or sale.

The capitalisation of borrowing costs commences only when all of the following conditions are satisfied:

- Expenditures for the asset have incurred; and
- Borrowing costs are being incurred; and
- Activities relating to the construction or production of the asset that are necessary to prepare the asset for its intended use or sale have commenced.

During the capitalisation period, the amount of interest to be capitalised for each accounting period shall be determined as follows:

- Where funds are borrowed under a specific-purpose borrowing, the amount of interest to be capitalised is the actual interest expense incurred on that borrowing for the period less any bank interest earned from depositing the borrowed funds before being used on the asset or any investment income on the temporary investment of those funds;

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

18 Borrowing Costs *(continued)*

- Where funds are borrowed under general-purpose borrowings, the amount of interest to be capitalised on such borrowings by applying a capitalisation rate to the weighted average of the excess of cumulative expenditures on the asset over the amounts of specific-purpose borrowings. The capitalisation rate is the weighted average of the interest rates applicable to the general-purpose borrowings.

Capitalisation of borrowing costs is suspended during periods in which the acquisition, construction or production of a qualifying asset is interrupted by activities other than those necessary to prepare the asset for its intended use or sale, when the interruption is for a continuous period of more than 3 months. Borrowing costs incurred during these periods are recognised as an expense of the current period until the acquisition, construction or production is resumed.

Capitalisation of borrowing costs ceases when the qualifying asset being acquired, constructed or produced becomes ready for its intended use or sale. Any borrowing costs incurred subsequently are recognised as an expense in the period in which they are incurred.

19 Intangible assets

(1) Valuation method, useful life and impairment test

A purchased intangible asset is measured initially at cost. An intangible asset acquired in the combination not involving enterprises under common control, it shall be separately recognised as an intangible asset at its fair value on the acquisition date.

The useful life of an intangible asset is determined according to the period over which it is expected to generate economic benefits for the Group. An intangible asset is regarded as having an indefinite useful life when there is no foreseeable limit period over which the asset is expected to generate economic benefits for the Group.

The useful lives of the intangible assets are as follows:

Item	Useful life	Basis for determination
Land use rights	50-70 years	Legal right of use
Proprietary technology and technical know-how	3-25 years	The authorisation period agreed in the contract or the period for which economic benefits are expected to be brought to the Group
Software use rights	2-10 years	The authorisation period agreed in the contract or the period for which economic benefits are expected to be brought to the Group
Customer relationship	7-15 years	The period for which economic benefits are expected to be brought to the Group
Backlogs and technical service preferential orders	The period in which the services are rendered agreed in the contract	The period for rendering of services agreed in the contract

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

19 Intangible assets *(continued)*

(1) Valuation method, useful life and impairment test *(continued)*

Land use rights acquired by the Group during the service period specified in the contract are accounted for as intangible assets. For buildings such as plants that are developed and constructed by the Group, the relevant land use rights and buildings are accounted for as intangible assets and fixed assets respectively. Payments for the land and buildings purchased are allocated between the land use rights and the buildings; if the payments cannot be reasonably allocated, all of the land use rights and buildings are accounted for as fixed assets.

An intangible asset with a finite useful life is amortised using the straight-line method over its useful life. For an intangible asset with a finite useful life, the Group reviews the useful life and the amortisation method at least at the end of each fiscal year and makes adjustment if necessary.

An intangible asset with an indefinite useful life is not amortised and its useful life is reviewed in each accounting period. If there is an evidence indicating that the useful life of the intangible asset is finite, it is accounted for using the above accounting policies applicable to intangible assets with finite useful lives.

(2) Collection scope of research and development expenditure and relevant accounting treatment methods

The Group classifies the expenditure on an internal research and development project into research expenditures and development expenditures.

Research expenditure is recognised as an expense in the period in which it is incurred.

Development expenditures which meet the criteria set out below shall capitalised, that is, it is technically feasible to complete the intangible asset so that it will be available for use or sale; the Group has the intention to complete the intangible asset and use or sell it; the Group can demonstrate the ways in which the intangible asset will generate economic benefits, including the evidence of the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset need to be proved; the availability of adequate technical, financial and other resources to complete the development and the ability to use or sell the intangible asset; and the expenditure attributable to the intangible asset during its development phase can be reliably measured. Expenditure on the development phase that does not meet the above criteria is recognised in profit or loss for the period in which it is incurred. Research expenditure is recognised as an expense in the period in which it is incurred.

If the expenditures cannot be distinguished between the research phase and development phase, the Group recognises all of them in profit or loss for the period.

For sale of products or by-products generated during the research and development process, the relevant income and cost shall be accounted for separately and included in the current profit and loss in accordance with the requirements of the Accounting Standards for Business Enterprises No. 14 – Revenue and the Accounting Standards for Business Enterprises No. 1 – Inventories.

Methods of impairment assessment and provision for impairment are set out in Note V. 20.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

20 Impairment of long-term assets

The Group assesses at each balance sheet date whether there is any indication that long-term equity investment, fixed assets and construction in progress, investment properties, development expenditure, long-term deferred expenses and some other non-current assets under cost method, right-of-use assets and intangible assets with a finite useful life may be impaired. If there is any indication that such assets may be impaired, recoverable amounts are estimated for such assets. Intangible assets with indefinite useful life and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that the assets may be impaired.

Recoverable amount is estimated on the basis of individual asset. If it is not practical to estimate the recoverable amount of an individual asset, the recoverable amount of the asset group to which the asset belongs will be estimated. The recoverable amount of an asset is the higher of its fair value less disposal costs and the present value of the future cash flows expected to be derived from the asset.

If the recoverable amount of an asset or an asset group is less than its carrying amount, the deficit is accounted for as an impairment loss and is recognised in profit or loss for the period.

Goodwill is tested for impairment at least at each year end. When conduct impairment test for goodwill, it should be considered together with the related assets group(s), i.e., goodwill is reasonably allocated to the related assets group(s) or each of assets group(s) expected to benefit from the synergies of the combination. An impairment loss is recognised if the recoverable amount of the assets group or sets of assets groups (including goodwill) is less than its carrying amount. The impairment loss is firstly allocated to reduce the carrying amount of any goodwill allocated to such assets group or sets of assets groups, and then to the other assets of the group pro-rata on the basis of the carrying amount of each asset (other than goodwill) in the group.

Once the above impairment loss is recognised, it cannot be reversed in any subsequent accounting periods.

21 Long-term deferred expenses

Long-term deferred expenses are expenses incurred that should be amortised over the current and subsequent periods (amortisation period of more than one year). Long-term deferred expenses are amortised using the straight-line method over the expected periods in which benefits are derived.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

22 Employee benefits

Employee benefits are all forms of remuneration and compensation given by an entity in exchange for services rendered by employees or for the termination of employment and other remunerations. Employee benefits include short-term benefit, Retirement benefits, termination benefits and other long-term employee benefits. The benefits the Group provided to employees' spouse, children, dependent, and families of deceased employees and other beneficiaries also belong to employee benefits.

(1) Accounting for short-term employee benefits

During the accounting period in which the employees provide services, the Group's actual short-term remuneration is recognised as liabilities and included in the profits or losses of the current year or recognised as respective assets costs.

Regarding to the health insurance, industrial injury insurance, maternity insurance and other social insurances, housing fund and labour union expenditure and personnel education that the Group paid for employees, the Group should recognise corresponding employees benefits payable and include these expenses in the profits or losses of the current year or recognised as respective assets costs.

(2) Accounting for retirement benefits

Retirement benefits are classified into defined contribution plans and defined benefit plans.

In an accounting period in which an employee has rendered service to the Group, the amount payable calculated in accordance with the defined contribution plan is recognised as a liability and charged to profit or loss in the period, or included in cost of related assets.

For defined benefit plans, the independent actuary makes actuarial estimation to determine cost of benefits offered and attributable period by using projected unit credit method. Defined benefit costs are categorised as follows:

- (i) Service costs include current service cost, past service cost, as well as gains and losses on and settlements. Current service cost refers to the increase amount of present value of defined benefit obligation arising from service rendered in current year; past service cost refers to the change of present value of defined benefit obligation arising from modification of defined benefit plans;
- (ii) Net interest expense or income net of liabilities or assets (including interest income of planned assets, interest expenses of defined benefit plan liabilities and effect of asset ceiling;
- (iii) Changes arising from remeasurement of net liabilities or net assets of defined benefit plans (including actuarial gains and losses).

Unless benefits costs recognised in the cost of assets are required or permitted by other standards, the Group presents the above (i) and (ii) in profit or loss while (iii) in other comprehensive income, which will not be reversed to the profit or loss during the subsequent accounting period.

The defined benefit plans provided by the Group are set out in Note VII. 43.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

22 Employee benefits *(continued)*

(3) Accounting for termination benefits

When the Group terminates the employment relationship with employees before the end of the employment contracts or provides compensation as an offer to encourage employees to accept voluntary redundancy, a provision shall be recognised for the compensation arising from termination of employment relationship with employees, with a corresponding charge to the profit or loss for the current year, at the earlier of when:

- (i) The Group cannot unilaterally withdraw from the termination plan or the redundancy offer; or
- (ii) The Group recognises costs relating to termination benefits payment in respect of restructuring.

23 Provisions

Except for contingent consideration arising and contingent liabilities undertaken in business combinations, the Group recognises an obligation related to a contingency as a provision when all of the following conditions are satisfied: (i) the obligation is a present obligation of the Group; (ii) it is probable that an outflow of economic benefits will be required to settle the obligation; and; (iii) the amount of the obligation can be measured reliably. A provision is initially measured at the best estimate of the expenditure required to settle the related present obligation, with comprehensive consideration of factors such as the risks, uncertainty and time value of money relating to a contingency. The carrying amount of a provision is reviewed at each balance sheet date. If there is clear evidence that the carrying amount does not reflect the current best estimate, the carrying amount is adjusted to the best estimate.

Provisions are recognised when the Group has a present obligation related to a contingency such as warranty provisions/onerous contract/outstanding litigations, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be measured reliably. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into consideration of the factors pertaining to a contingency such as the risks, uncertainties and time value of money. Where the effect of the time value of money is material, the amount of the provision is determined by discounting the related future cash outflows.

24 Share-based payments

(1) Classification of share-based payments

Share-based payment transactions in the Group are classified as equity-settled share-based payments and cash-settled share-based payments.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

24 Share-based payments *(continued)*

(2) Accounting treatment of share-based payments

– Equity-settled share-based payments

Where the Group uses shares or other equity instruments as consideration for services received from employees, the payment is measured at the fair value of the equity instruments granted to employees at the grant date. If the equity instruments granted to employees vest immediately, the fair value of the equity instruments granted is fully recognised as costs or expenses on the grant date, with a corresponding increase in capital reserve. If the equity instruments granted do not vest until the completion of services for a period, or until the achievement of a specified performance condition, the Group recognises an amount at each balance sheet date during the vesting period based on the best estimate of the number of equity instruments expected to vest according to newly obtained subsequent information regarding changes in the number of employees expected to vest the equity instruments. The Group measures the services received at the grant-date fair value of the equity instruments and recognises the costs or expenses as the services are received, with a corresponding increase in capital reserve.

When the Group receives services but has no obligation to settle the transaction because the relevant equity instruments are issued by the Company's ultimate parent or its subsidiaries outside the Group, the Group also classifies the transaction as equity-settled.

– Cash-settled share-based payments

Where the Group receives services from employees by incurring a liability to deliver cash or other assets for amounts that are determined based on the price of shares or other equity instruments, the services received from employees are measured at the fair value of the liability incurred. If a cash-settled share-based payment vests immediately, the Group immediately recognises on the grant date the costs or expenses and the liability incurred at the fair value of the liability incurred. If a cash-settled share-based payment does not vest until the completion of services for a period, or until the achievement of a specified performance condition, the Group recognises costs or expenses as services are received, with a corresponding increase in liability, at an amount equal to the fair value of the liability based on the best estimate of the outcome of vesting. Until the liability is settled, the enterprise shall remeasure the fair value of the liability at each balance sheet date and at the date of settlement, with changes recognised in profit or loss for the current period.

When the Group receives services and has the obligation to settle the transaction, but the relevant equity instruments are issued by the Company's ultimate parent or its subsidiaries outside the Group, the Group classifies the transaction as cash-settled.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

25 Revenue

(1) Accounting policy for recognition and measurement of revenue from contracts with customers according to business type

The revenue of the Group is mainly generated from business types as follows:

- (i) Revenue from selling of goods;

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

25 Revenue *(continued)*

(1) Accounting policy for recognition and measurement of revenue from contracts with customers according to business type *(continued)*

If the contract includes two or more performance obligations, at contract inception, the Group allocates the transaction price to single performance obligation according to relative proportion of the stand-alone selling prices of the goods or services promised by single performance obligation. However, where there is conclusive evidence that the contract discount or variable consideration is only related to one or more (not all) performance obligations in the contract, the Group shall allocate the contract discount or variable consideration to relevant one or more performance obligations. The stand-alone selling price is the price at which the Group would sell a promised good or service separately to a customer. If a stand-alone selling price is not directly observable, the Group shall consider all information that is reasonably available to the Group and maximize the use of observable inputs and apply estimation methods consistently in similar circumstances.

If the contract includes consideration payable to a customer (for example, supplier nomination fee, etc.), the Group shall account for consideration payable to a customer as a reduction of the transaction price unless the payment to the customer is in exchange for a distinct good or service, and recognised the reduction of revenue when (or as) the later of either of the following events occurs: 1) the Group recognises revenue for the transfer of the related goods or services to the customer; and 2) the Group pays or promises to pay the consideration.

For sales with quality assurance terms, if the quality assurance provides a separate service to the customer other than ensuring that the goods or services sold meet the established standards, the quality assurance constitutes a single performance obligation. Otherwise, the Group will account for the quality assurance responsibility in accordance with the Accounting Standards for Business Enterprises No. 13 – Contingencies.

If the contract contains a significant financing component, the Group determines the transaction price based on the amount payable under the assumption that the customer pays that amount payable in cash when “control” of the goods or services is obtained by the customer. The difference between the transaction price and the contract consideration shall be amortised within the contract period using effective interest rate. If the Group expects, at contract inception, that the period between when the Group transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less, the Group needs not to consider the significant financing component.

The Group determines whether it is a principal or an agent at the time of the transaction based on whether it owns the “control” of the goods or services before the transfer of such goods or services to the customer. The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer, and the revenue shall be recognised based on the total consideration received or receivable; otherwise, the Group is an agent, and the revenue shall be recognised based on the amount of commission or handling fee that is expected to be charged, and such amount is determined based on the net amount of the total consideration received or receivable after deducting the prices payable to other related parties or according to the established commission amount or proportion.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

25 Revenue *(continued)*

(1) Accounting policy for recognition and measurement of revenue from contracts with customers according to business type *(continued)*

For a change in the scope or price of a contract that is approved by the parties to the contract, the Group accounts for the contract modification according to the following situations:

- (i) The addition of promised goods or services are distinct and the price of the contract increases by an amount of consideration reflects stand-alone selling prices of the additional promised goods or services, the Group shall account for a contract modification as a separate contract;
- (ii) If the above criteria are not met, and the remaining goods or services are distinct from the goods or services transferred on the date of the contract modification, the Group accounts for the contract modification as if it were a termination of the existing contract and the creation of a new contract;
- (iii) If the above criteria are not met, and the remaining goods or services are not distinct from the goods or services transferred on the date of the contract modification, the Group accounts for the contract modification as if it were a part of the existing contract. The effect that the contract modification has on the revenue is recognised as an adjustment to revenue in the reporting period.

When the Group collects amounts of sold goods or services in advance from the customer, the Group will firstly recognise the amounts as a liability and then transfer to revenue until satisfying relevant performance obligations.

Contract asset refers to the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer when that right is conditioned on something other than the passage of time. Accounting policies relating to contract asset are specified in Note V. 11. The Group's unconditional (i.e., depending on the passage of time only) right to receive consideration from the customer is separately presented as receivables.

Contract liabilities refer to the Group's obligation to transfer goods or services to a customer for which the Group has received consideration from the customer.

Contract assets and contract liabilities under the same contract are presented at net amount.

Except for the income arising from contracts with customers, income of the Group includes interest income and lease income from daily operating activities. Relevant accounting policies are detailed in Note V. 11 and 28.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

26 Contract costs

Contract costs are either the incremental costs of obtaining a contract with a customer or the costs to fulfil a contract with a customer.

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract that it would not have incurred if the contract had not been obtained, e.g. an incremental sales commission. The Group recognises as an asset the incremental costs of obtaining a contract with a customer if it expects to recover those costs. Other costs of obtaining a contract are expensed when incurred.

If the costs to fulfil a contract with a customer are not within the scope of inventories or other accounting standards, the Group recognises an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria:

- (i) the costs relate directly to an existing contract or to a specifically identifiable anticipated contract, including direct labour, direct materials, allocations of overheads (or similar costs), costs that are explicitly chargeable to the customer and other costs that are incurred only because the Group entered into the contract;
- (ii) the costs generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- (iii) the costs are expected to be recovered.

Assets recognised for the incremental costs of obtaining a contract and assets recognised for the costs to fulfil a contract (the "assets related to contract costs") are amortised on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the assets relate and recognised in profit or loss for the current period.

The Group recognises an impairment loss in profit or loss to the extent that the carrying amount of an asset related to contract costs exceeds:

- (i) remaining amount of consideration that the Group expects to receive in exchange for the goods or services to which the asset relates; less
- (ii) the costs that relate directly to providing those goods or services that have not yet been recognised as expenses.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

27 Deferred tax assets/Deferred tax liabilities

The income tax expenses include current income tax and deferred tax. Except for that (1) goodwill arising from the business combination or (2) the current income tax and deferred income tax related to transactions or events recognised in other comprehensive income or shareholders' equity are included in other comprehensive income or shareholders' equity, other current income tax and deferred income tax expenses or gains are included in profit or loss for the period.

(1) Current income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered or paid according to the taxation laws and regulations.

(2) Deferred tax assets/deferred tax liabilities

For temporary differences between the carrying amounts of certain assets or liabilities and their tax base, or between the nil carrying amount of those items that are not recognised as assets or liabilities and their tax base that can be determined according to tax laws, deferred tax assets and liabilities are recognised using the balance sheet liability method.

A deferred tax liability is recognised for all taxable temporary differences, except:

- Where taxable temporary differences arise from the initial recognition of goodwill; or the initial recognition of an asset or liability in a transaction that is not a business combination, and at the time of the transaction, it affects neither accounting profit nor taxable profit or loss;
- For taxable temporary differences associated with investments in subsidiaries, joint ventures and associates, where the timing of the reversal of the temporary differences can be controlled by the Group and it is probable that the temporary differences will not reverse in the foreseeable future.

A deferred tax asset is recognised for deductible temporary differences, carry forward of unused deductible tax losses and tax credits, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of deductible tax losses and tax credits can be utilised, except:

- Where the deferred tax asset arises from a transaction that is not a business combination and, at the time of the transaction, neither affects the accounting profit nor taxable profit or loss;
- Deductible temporary differences associated with investments in subsidiaries, joint ventures and associates, a deferred tax asset is only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised in the future.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

27 Deferred tax assets/Deferred tax liabilities *(continued)*

(2) Deferred tax assets/deferred tax liabilities *(continued)*

Deferred tax is not recognised for temporary differences arising from the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting profit nor taxable profit (or deductible loss).

At the balance sheet date, deferred income tax assets and liabilities are measured, subject the tax laws, at the applicable rate in the period in which deferred tax assets or liabilities are expected to be realised or settled, and the tax effects arising from the expected reversal of assets or liabilities are reflected at the balance sheet date.

The carrying amount of deferred tax assets is reviewed at the balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available in future periods to allow the deferred tax assets to be utilised. Unrecognised deferred tax assets are reassessed at the balance sheet date and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

When the Group has a legal right to settle on a net basis and intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously, current tax assets and current tax liabilities are offset and presented on a net basis.

Deferred tax assets and deferred tax liabilities are offset and presented on a net basis if the Group has a legal right to set off the current tax assets against current tax liabilities on a net basis and the deferred taxes relate to the same taxable entity and the same taxation authority.

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

28 Leases

As the judgement basis and accounting treatment method for the lessee to simplify short-term lease and low value asset lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into on the date of initial application, the Group assesses whether a contract is or contains a lease at commencement date. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

(1) As a lessee

(a) Allocation

For a contract that contains one or more lease component and non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate stand-alone price of the non-lease components.

(b) Right-of-use assets

Except for short-term leases and leases of low value assets, the Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). The right-of use asset is initially measured at cost. This cost includes:

- The initial measurement amount of the lease liabilities;
- Any lease payments made at or before the commencement date, less any lease incentives received;
- Any initial direct costs incurred by the Group; and
- An estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, excluding the costs that are incurred to produce inventories.

After the commencement date of the lease, the carrying amount of right-of-use assets shall be adjusted when lease liability is remeasured.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

28 Leases *(continued)*

As the judgement basis and accounting treatment method for the lessee to simplify short-term lease and low value asset lease *(continued)*

(1) As a lessee *(continued)*

(b) Right-of-use assets

The Group makes depreciation for the right-of-use assets in accordance with the relevant depreciation regulations under the Accounting Standards for Business Enterprises No. 4-Fixed Assets. Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term is depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

For the method of testing the impairment of the right-of-use asset and the method of determining impairment provision, please refer to Note V. 20 for details.

(c) Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

Lease payment refers to the amount paid by the Group to the lessor relating to the right to use an underlying asset during the lease term, including:

- Fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- Variable lease payments depending on the index or ratio;
- The exercise price of a purchase option reasonably certain to be exercised by the Group;
- Payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate; and
- Amounts expected to be paid under residual value guarantees.

The variable lease payments, depending on the index or ratio, are determined at the initial measurement based on the index or proportion at the beginning of the lease term. The variable lease payments that are not included in the measurement of the lease liability are recognised in profit or loss or related asset costs when incurred.

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

28 Leases *(continued)*

As the judgement basis and accounting treatment method for the lessee to simplify short-term lease and low value asset lease *(continued)*

(1) As a lessee *(continued)*

(c) Lease liabilities *(continued)*

After the commencement date of the lease term, the Group calculates the interest expense of the lease liabilities for each period of the lease term based on a fixed periodic interest rate, and includes it in profit and loss or related asset costs.

After the commencement date of the lease term, the Group re-measures the lease liabilities and adjusts the corresponding right-of-use asset in the following circumstances. If the book value of the right-of-use asset has been reduced to zero, while the lease liabilities still need to be further reduced, the difference shall be included in the profit and loss:

- The Group re-measures the lease liabilities based on the present value of the post-change lease payments and the revised discount rate as a result of changes in the lease term or changes in the purchase option;
- The Group re-measures the lease liabilities based on the present value of the changed lease payments and the original discount rate, based on the amount of the amount payable or the index or proportion used to determine the lease payments. If the change in lease payments comes from changes in floating interest rates, the revised discount rate shall be adopted to calculate the present value.

(d) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to short-term leases of housing and buildings, machinery and equipment, motor vehicles, office equipment and other equipment and leases of low-value assets. Short-term leases are leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. A lease of low value asset refers to a single lease asset, when new, is of low value.

Lease payments on short-term leases and leases of low-value assets are recognised in profit or loss or the cost of underlying assets on a straight-line basis over the lease term.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

28 Leases *(continued)*

As the judgement basis and accounting treatment method for the lessee to simplify short-term lease and low value asset lease *(continued)*

(1) As a lessee *(continued)*

(e) Lease modifications

The Group accounts for a lease modification as a separate lease if there is a lease modification and both of the following apply:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

If the scope of the lease is narrowed or the lease term is shortened as a result of the lease modification, the Group reduces the carrying amount of the right-of-use assets accordingly, and record the relevant gains or losses of partial or complete termination of the lease into the current profit and loss. In case of remeasurement of lease liabilities due to other lease modifications, the Group adjusts the carrying amount of the right-of-use assets accordingly.

(2) Sales and lease back

The Group acts as the seller and lessee

The Group determines whether the asset transfer in the sale and leaseback transaction is a sale in accordance with Note V. 25. If the transfer of assets is not a sale, the Group continues to recognise the transferred assets and recognises a financial liability equal to the transfer income, and accounts for the financial liabilities in accordance with Note V. 11. Where the transfer of assets belongs to sales, the Group measures the right-of-use assets formed by the sale and leaseback based on the portion of the original asset's book value that is related to the use rights obtained from the leaseback, and only recognises the relevant gains or loss of the rights to transfer to the lessor.

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

28 Leases *(continued)*

Lease classification standard and accounting treatment method as lessor

(1) As a lessor

(a) Allocation

Where the contract includes both the lease and non-lease components, the Group apportions the contract consideration according to the provisions of Note V. 25 on the transaction price sharing. The basis of the apportionment is the individual selling price of the leased part and the non-lease part.

(b) Classification of lease

A lease that has substantially transferred almost all the risks and rewards related to the ownership of the leased asset is a financial lease. Leases other than finance leases are operating leases.

(i) *The Group records the operating lease business as a lessor*

During each period of the lease term, the Group uses the straight-line method to recognise the lease payments from operating leases as rental income. The initial direct costs incurred by the Group in relation to the operating leases are capitalised at the time of the acquisition, and are recognised in profit or loss.

(ii) *The Group records the finance leasing business as a lessor*

The net investment in the lease is measured at the aggregate of the unguaranteed residual value and the present value of the lease receivable that are not received at the commencement date, discounted using the interest rate implicit in the lease.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

28 Leases *(continued)*

Lease classification standard and accounting treatment method as lessor *(continued)*

(1) **As a lessor** *(continued)*

(b) **Classification of lease** *(continued)*

(ii) **The Group records the finance leasing business as a lessor** *(continued)*

The amount of the lease receivable refers to the amount that the Group should collect from the lessee for the purpose of transferring the leased assets during the lease term, including:

- The fixed payment amount and the substantial fixed payment amount to be paid by the lessee, if there is a lease incentive, the amount related to the lease incentive is deducted;
- Variable lease payments depending on the index or ratio;
- The exercise price of the purchase option, provided that it is reasonably determined that the lessee will exercise the option;
- The lessee exercises the amount to be paid for the termination of the lease option, provided that the lease period reflects the lessee's exercise of the option to terminate the lease;
- The residual value of the guarantee provided by the lessee, the party concerned with the lessee and the independent third party with the financial ability to perform the guarantee obligation.

The Group calculates and recognises interest income for each period of the lease term based on a fixed periodic interest rate.

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

28 Leases *(continued)*

Lease classification standard and accounting treatment method as lessor *(continued)*

(1) As a lessor *(continued)*

(c) Lease modification

The Group accounts for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease.

If the finance lease changes and meets the following conditions, the Group will account for the change as a separate lease:

- The modification expands the scope of the lease by increasing the right to use one or more leased assets;
- The increased consideration is equal to the individual price of the expanded portion of the lease, as adjusted by the contractual situation.

If the modification of the finance lease is not treated as a separate lease, the Group will deal with the lease modification in the following cases:

- If the lease is classified as an operating lease when the change becomes effective on the lease start date, the Group begins accounting as a new lease from the effective date of the lease change and uses the net lease investment before the effective date of the lease change as the book value of the leased asset;
- If the change is effective on the lease start date and the lease is classified as a finance lease, the Group performs accounting treatment in accordance with the "Accounting Standards for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments" provisions for the modification or re-arrangement of contracts.

(2) Sales and leaseback

The Group acts as the buyer and lessor

If the asset transfer in the sale and leaseback transaction is not a sale, the Group does not recognise the transferred asset, but recognises a financial asset equal to the transfer income and performs accounting treatment on the financial asset in accordance with Note V. 11. If the asset transfer belongs to sales, the Group will account for the asset purchase according to other applicable accounting standards and conduct accounting treatment for the asset lease.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

29. Other Significant accounting policies and accounting estimates

1. Other significant accounting policies

(1) Profit distribution

The proposed dividend distribution after balance sheet date will not be included in liabilities on balance sheet date, and will be disclosed individually in notes.

(2) Production safety expenses

Production safety expenses accrued based on the aforesaid regulations shall be recorded in the costs of related products or expenses in profit or loss for the current period, and provided as a fund in the special reserve. When the expenditures are utilised as expenses, they should be recognised in the statement of profit or loss and offset against the special reserve; when the expenditures incurred relate to fixed assets, they shall be recognised in the cost of fixed assets, which will be recognised when it is ready for use. The same amount as the expenditure will be offset against the special reserve and recorded as accumulated depreciation equivalent at the same time.

(3) Debt restructuring

Recording debt restructuring obligation as a creditor

When a debt is settled by assets in a debt restructuring, the assets other than the transferred financial assets are initially recognised and measured at cost, including other costs such as the fair value of abandoned creditor's rights and taxes directly attributable to the asset. The difference between the fair value and the carrying amount of the abandoned creditor's right is included in the current profit or loss.

Where debt restructuring is carried out by modifying other terms, the Group recognises and measures the debt restructuring in accordance with the accounting policies described in Note V. 11.

(4) Related parties

If a party has the power to control, jointly control or exercise significant influence over another party, or vice versa, or where two or more parties are subject to common control or joint control from another party, they are considered to be related parties. Related parties may be individuals or enterprises. Enterprises with which the Company is under common control only from the state and that have no other related party relationships are not regarded as related parties.

In addition to the related parties stated above, the Company determines related parties based on the disclosure requirements of Administrative Procedures on the Information Disclosures of Listed Companies issued by the CSRC.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

29 Other Significant accounting policies and accounting estimates *(continued)*

2. Significant accounting estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions, which will affect the presented amounts of revenue, cost, assets and liabilities and the disclosure of contingent liabilities on balance sheet date. However, the uncertainty of assumptions and estimates may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in future periods.

The following is key assumption and uncertainty in accounting estimates at the balance sheet date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in future periods.

(1) Credit loss allowance for receivables and contract assets

Except for that the Group recognises credit loss for receivables and contract assets that are individually significant or have credit impaired on an individually basis, the Group determines the expected credit loss of receivables and contract assets on a collectively basis using a provision matrix. For receivables and contract assets whose credit loss are determined individually, the Group determines the credit loss by estimating the expected cash flows based on reasonable and evidenced information available on the balance sheet date with forward-looking information taken into consideration. For receivables and contract assets other than the above, the Group, based on the historical collection condition, determines the proportion of corresponding loss provision for each type of receivables and contract assets with similar credit risk characteristics on a portfolio basis. The provision matrix is based on the Group's historical credit loss experience and is based on reasonable and evidence-based forward-looking information that is available without undue cost or effort. As at 31 December 2023, the Group has reassessed the historical actual credit loss rate and considered changes in forward-looking information.

(2) Impairment of goodwill

For goodwill arising from business combination, the Group tests it for impairment at the year end. Impairment test requires an estimate of the recoverable amount of the relevant asset group containing goodwill, that is, the higher of its fair value less costs of disposal and the present value of the future cash flows expected to be derived from the asset. In determining the present value of the future cash flows of the relevant asset group or the fair value of such asset group under equity method, the Group needs to properly determine the expected growth rate of future cash flow prediction of related asset group, the gross profit margin, the investment income proportion of long-term assets, average growth rate and reasonable discount rate, etc. When the market conditions change, the recoverable amount of the relevant asset group may differ from the existing estimates, which will affect the profit and loss for the period. Relevant details of impairment of goodwill are set out in Note VII. 24.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

29 Other Significant accounting policies and accounting estimates *(continued)*

2. Significant accounting estimates and judgements *(continued)*

(3) Depreciation and amortisation of investment properties, fixed assets and intangible assets

Investment properties, fixed assets and intangible assets with a definite life are depreciated and amortised in their useful lives respectively by the Group after considering residual values. The Group reviews useful life of assets periodically so as to determine the amounts for depreciation and amortisation in each reporting period. The useful life of assets is determined on the basis of previous experiences and estimated technology upgrading. If prior estimates change significantly, make adjustment to depreciation and amortisation expenses.

(4) Supplementary pension benefits and other supplementary benefits plan liabilities

The Group has recognised supplementary pension benefits and other supplementary benefits plan as liabilities. The estimated amounts of such benefits expenses and liabilities are calculated on the basis of various assumption conditions, including discount rate, growth rate of related benefits and others. The difference between actual results and actuarial assumption may affect the accuracy of accounting estimations. The changes in above assumptions will affect amount of liabilities for supplementary pension benefits and other supplementary benefits plan liabilities, even though the management considers the assumptions are reasonable.

(5) Provision for impairment of inventories

The Group determines the write-down for obsolescence and slow movement of inventories. These estimates are made with reference to aged inventory analyses, projections of expected future salability of goods and management experience and judgement. Based on this review, write-down of inventories will be made when the carrying amounts of inventories decline below their estimated net realisable values. Due to changes in market conditions, actual salability of goods may be different from estimation and profit or loss could be affected by differences in this estimation.

(6) Deferred tax assets

Besides the exceptions that have been illustrated in the Note V. 27, deferred tax assets are recognised for unused tax losses and deductible temporary differences to the extent that it is probable that taxable profit will be available against which the losses and deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

V. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

29 Other Significant accounting policies and accounting estimates *(continued)*

2. Significant accounting estimates and judgements *(continued)*

(7) Long-term assets impairment (excluding goodwill)

The Group determines if there is any indication showing impairment in long-term assets other than goodwill on balance sheet date. If there is any indication that it is unlikely to recover the carrying amount, the Group will make impairment assessment. Where the carrying amount of assets or assets group is higher than recoverable amount, namely the higher of net amount of fair value less disposal expense, and the present value of future estimated cash flow, the Group determines that impairment exists. The management must make estimation on future cash flow of such assets or assets group, and select reasonable discount rate to determine the present value of future cash flow.

(8) Warranties for product quality

Based on the recent experience in product maintenance, the Group will estimate the provisions for aftersales quality maintenance commitment provided to customers for the sale, maintenance and transformation of locomotives, vehicles and spare parts. As the recent maintenance experience may not reflect the maintenance situation of the sold products in the future, the management's judgments are required to estimate the provisions. Any increase or decrease in the provision would affect profit or loss in future years.

30 Changes in significant accounting policies and accounting estimates

(1) Changes in significant accounting policies

In 2023, the Group has adopted the revised accounting requirements and guidance under CASs newly issued by the Ministry of Finance ("MOF").

(a) CAS 25 Insurance Contracts (Caikuai [2020] No.20) (the "New Insurance Standard") and the related implementation Q&As

The New Insurance Standard has replaced CAS 25 *Direct Insurance Contracts* and CAS 26 *Reinsurance Contracts* that were issued in 2006, and *Accounting Requirements for Insurance Contracts* (Caikuai [2009] No.15) that was issued in 2009.

The Group does not have transactions related to insurance contracts. Applying the New Insurance Standard does not have a material impact on the financial position or financial performance of the Group.

Notes to the Consolidated Financial Statements

30 Changes in significant accounting policies and accounting estimates *(continued)*

(1) Changes in significant accounting policies *(continued)*

- (b) **“The accounting treatment of deferred tax related to assets and liabilities arising from a single transaction excluded from the scope of the initial recognition exemption” in CAS Bulletin No.16 (Caikuai [2022] No.31) (“CAS Bulletin No.16”)**

According to the provisions, the Group does not apply the initial recognition exemption under CAS 18 *Income Taxes* to temporary differences arising from the initial recognition of assets or liabilities in a single transaction that is not a business combination, affects neither accounting profits nor taxable profit (or deductible losses) and gives rise to equal taxable and deductible temporary differences, such as leases. When such transactions occur, the Group recognises the corresponding deferred tax liabilities for the new taxable temporary differences arising from the initial recognition of the transaction in accordance with relevant provisions in CAS 18 *Income Tax*.

In addition, the Group has sufficient deductible temporary differences, for which deferred tax assets have not yet been recognised, in the future periods when the aforementioned new taxable temporary differences are expected to reverse. Therefore, the Group has recognised additional deferred tax assets at the equal amount to the new deferred tax liabilities. The additional deferred tax assets and liabilities meet the conditions for offsetting and are presented on a net basis in the balance sheet. As a result of the net presentation, applying the above provisions does not have a material impact on the financial position or financial performance of the Group.

VI. TAXES

1 Major categories of taxes and tax rates

Category of tax	Basis of tax computation	Tax rate
VAT	Output VAT is calculated by applying applicable rate to the taxable income, less deductible input VAT of the current year.	6 – 13%
City maintenance and construction tax	Computed by value added tax payable	5 – 7%
Enterprise income tax	Computed by taxable income	25%

VI. TAXES (continued)

2 Tax incentive

(1) VAT

According to The Notice of the MoF and the State Administration of Taxation on the Policy of Value Added Tax on Software Products (Cai Shui [2011] No. 100), the part of the actual tax burden of VAT exceeding 3% was levied and refunded upon collection, when CRRC Information Technology, CRRC Qiqihar Group, CRRC Sifang Institute and CRRC Dalian Institute, CRRC Zhuzhou Institute, CRRC Zhuzhou Locomotive and its holding subsidiaries sell their self-developed and self-produced software products in 2023.

According to the Announcement on the Policy of VAT Addition and Deduction for Advanced Manufacturing Enterprises (Announcement No. 43 of 2023 issued by the Ministry of Finance and the State Administration of Taxation), from January 1, 2023 to December 31, 2027, some subsidiaries of the Group, as advanced manufacturing enterprises, will deduct the VAT payable by adding 5% of the current deductible input tax.

(2) Enterprise income tax

As approved by relevant Provincial Department of Science and Technology, Provincial Department of Finance, Provincial Office of the State Administration of Taxation, and Provincial Local Taxation Bureau, CRRC Industrial Institute and CRRC Nanjing Puzhen obtained high-tech enterprise certificate in 2021, and is subject to an enterprise income tax at a reduced rate of 15% from 2021 to 2023.

As approved by relevant Municipal Department of Science and Technology, Municipal Department of Finance, Municipal Office of the State Administration of Taxation, and Municipal Local Taxation Bureau, CRRC Dalian obtained high-tech enterprise certificate in 2021, and is subject to an enterprise income tax at a reduced rate of 15% from 2021 to 2023.

As approved by Beijing Municipal Science & Technology Commission, Beijing Municipal Bureau of Finance, Beijing Municipal Office of the State Administration of Taxation and Beijing Local Taxation Bureau, CRRC Information Technology obtained high-tech enterprise certificate in 2023, and is subject to an enterprise income tax at a reduced rate of 15% from 2023 to 2025.

As approved by relevant Provincial Department of Science and Technology, Provincial Department of Finance, Provincial Office of the State Administration of Taxation, and Provincial Local Taxation Bureau, CRRC Changchun, CRRC Zhuzhou Institute, CRRC Zhuzhou Locomotive, CRRC Qishuyan, CRRC Yongji Moto, CRRC Zhuzhou Moto and CRRC Datong obtained high-tech enterprise certificate in 2023, and are subject to an enterprise income tax at a reduced rate of 15% from 2023 to 2025. CRRC Tangshan and CRRC Qishuyan Institute obtained the high-tech enterprise certificate in 2020, and paid the corporate income tax at a reduced rate of 15% from 2020 to 2022. At the end of 2023, CRRC Tangshan was listed in the third batch of high-tech enterprises registered by the accreditation authority of Hebei Province in 2023, and CRRC Qishuyan Institute was listed in the second batch of high-tech enterprises registered by the accreditation authority of Jiangsu Province in 2023, The above companies are expected to pay corporate income tax at a reduced preferential tax rate of 15% in 2023.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

VI. TAXES (continued)

2 Tax incentive (continued)

(2) Enterprise income tax (continued)

As approved by relevant Municipal Department of Science and Technology, Municipal Department of Finance, Municipal Office of the State Administration of Taxation, and Municipal Local Taxation Bureau, CRRC Sifang Institute obtained high-tech enterprise certificate in 2023, and are subject to an enterprise income tax at a reduced rate of 15% from 2023 to 2025, and CRRC Dalian Institute obtained high-tech enterprise certificate in 2020, and are subject to an enterprise income tax at a reduced rate of 15% from 2020 to 2022. At the end of 2023, in the first batch of high-tech enterprises registered and publicized by the accreditation body of Dalian, where CRRC Dalian Institute is located, in 2023, the above companies are expected to still pay corporate income tax at a preferential rate of 15% in 2023.

According to the Notice on Issues Concerning Relevant Tax Policies in Deepening the Implementation of the Western Development Strategy issued by the MoF, the General Administration of Customs and the State Administration of Taxation (Cai Shui [2011] No. 58), for the period from 1 January 2021 to 31 December 2030, the enterprise income tax imposed upon any enterprise established in western regions and included among the encouraged industries shall be collected at the reduced rate of 15%. As approved by the Sichuan Provincial Office of the State Administration of Taxation, CRRC Ziyang is subject to an enterprise income tax at a reduced rate of 15% since its primary business is included among the encouraged industries.

According to the PRC Enterprise Income Tax Law and its implementing regulations, as well as the Notice of the MoF and the State Administration of Taxation on Extending the Period for Carryover of Losses of High-tech Enterprises and Small and Medium-sized Technological Enterprises (Cai Shui [2018] No.76), the enterprises with the qualification of high-tech enterprises or small and medium-sized technological enterprises (hereinafter referred to as "qualification") in 2018, are allowed to carry forward the losses occurred from 2013 to 2017 that have not yet been covered to subsequent years, regardless of whether they are the enterprises with the qualification from 2013 to 2017. The maximum carry-over period is 10 years. Enterprises that are qualified from the year after 2018 carry forward losses to offset tax on the same basis. A number of companies under the Group, as high-tech enterprises, will carry forward the deductible losses for 10 years since 2018 according to the provisions.

According to the Notice of MoF and SAT on Further Improvements to the Policy of Weighted Pre-tax Deduction for R&D Expenses (Cai Shui [2023] No. 7), since 1 January 2023, for some subsidiaries of the Group, the R&D expenses, which do not form intangible assets and are included in the current P/L, can be deducted in accordance with provisions, with 100% of the actual amount deducted before tax additionally. If intangible assets are formed, 200% of R&D expenses can be deducted before tax during the aforementioned period with the aim of motivating R&D activities.

According to the Inland Revenue (Amendment) (No. 2) Ordinance 2016 of the Government of the Hong Kong Special Administrative Region of the PRC ("the Amendment"), CRRC Hong Kong Capital Management is a qualified enterprise treasury center, therefore, the taxable profit from the business types specified in the Amendment (such as certain types of fund lending business, financial asset investment business, etc.) is subject to a preferential tax rate of 8.25%, and the statutory tax rate of 16.5% is still applicable to enterprise business.

Notes to the Consolidated Financial Statements

5 Contract assets

(1) Details of contract assets:

RMB'000

Item	Closing balance			Opening balance		
	Book value	Credit loss allowance	Carrying amount	Book value	Credit loss allowance	Carrying amount
Sale of goods related	50,038,763	(528,640)	49,510,123	45,551,602	(477,669)	45,073,933
Engineering business related	11,861,781	(129,706)	11,732,075	4,098,163	(26,871)	4,071,292
Sub-total	61,900,544	(658,346)	61,242,198	49,649,765	(504,540)	49,145,225
Less: Contract assets presented under other non-current assets	/	/	(27,652,063)	/	/	(23,996,712)
Total	/	/	33,590,135	/	/	25,148,513

Note 1: For the sales of goods provided by the Group, it is agreed in the contract that the Group shall pay separately at different phases according to the proportion. The Group recognises revenue at the time of acceptance and delivery of goods, and the right to receive consideration that does not meet the unconditional right to receive payment is recognised as contract assets and presented under contract assets/other non-current assets according to the liquidity.

Note 2: Revenue from project engineering services provided by the Group shall be recognised based on the performance progress, and the contract consideration shall be collected after the customer completes the acceptance check and work settlement. The difference between the revenue recognised based on the performance progress and such consideration shall be recognised as contract assets and presented under contract assets/other non-current assets according to the liquidity.

Warranty provisions from project engineering services provided by the Group and customer settlement, the Group has the unconditional right to collect consideration from customers after the expiration of the warranty period without material quality problems. Therefore, the contract assets formed from this part of the warranty provisions should be recognised as receivable after the end of the quality guarantee period without material quality problems.

As at 31 December 2023, the carrying amount of the Group's contract assets used for pledging amounted to RMB533,276,000 (as at December 31, 2022: contract assets with a carrying amount of RMB567,992,000 were used as pledges for the Group's acquisition of bank loans)

As at 31 December 2023, details of current account balances with related parties included in the balance of contract assets are set out in Note XIV. 5.

Item	Closing balance	Opening balance
Related parties	7,738,039	6,173,252
Third parties	146,295,689	124,784,451
Total	154,033,728	130,957,703

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

VII. NOTES OF CONSOLIDATED FINANCIAL STATEMENTS (continued)

30 Account payable (continued)

(2) Ageing analysis of accounts payable

Item	RMB'000	
	Closing balance	Opening balance
Within 1 year	145,412,694	123,670,940
1-2 year	4,644,954	3,449,524
2-3 year	1,655,690	1,362,084
over 3 years	2,320,390	2,475,155
Total	154,033,728	130,957,703

Other descriptions:

The ageing of accounts payable of the Group is classified based on the invoicing date.

As at 31 December 2023, details of accounts payable due to related parties are set out in Note XIV. 5.

31 Receipts in advance

(1) Details of receipts in advance:

Item	RMB'000	
	Closing balance	Opening balance
Related parties	2,167	2,010
Third parties	9,528	12,057
Total	11,695	14,067

Other descriptions:

As at 31 December 2023, details of receipts payable due to related parties are set out in Note XIV. 5.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

VII. NOTES OF CONSOLIDATED FINANCIAL STATEMENTS (continued)

32 Contract liabilities

Details of contract liabilities

Item	RMB'000	
	Closing balance	Opening balance
Sale of goods related (Note 1)	22,211,301	22,866,914
Project contracting services related (Note 2)	966,859	874,991
Sub-total	23,178,160	23,741,905
Less: Contract liabilities presented under other non-current liabilities (Note V. 46)	(1,315)	(9,415)
Total	23,176,845	23,732,490

Other descriptions:

Note 1: As at 31 December 2023, the acceptance and transfer of certain sales of goods of the Group was later than the customer's payment, generating contract liabilities related to the contract on sales of goods.

Note 2: As at 31 December 2023, the Group's contract liabilities related to the project contracting service contracts represented the excess of the settled amount over revenue recognised based on the progress of construction.

As at 31 December 2023, details of current account balances with related parties included in the balance of contract liabilities are set out in Note XIV. 5.

33 Deposits from banks and other financial institutions

Item	RMB'000	
	31 December 2023	31 December 2022
customer deposits of CRRC Finance	5,816,950	3,153,979
Total	5,816,950	3,153,979

As at 31 December 2023, details of deposits from banks and other financial institutions with related parties are set out in Note XIV.5.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

(3) Details of defined contribution plan

RMB'000

Item	Opening balance	Increases	Decreases	Closing balance
1. Basic pension insurance	221,085	3,147,338	3,326,587	41,836
2. Unemployment insurance	8,269	122,429	128,884	1,814
3. Enterprise annuity	27,608	978,854	990,035	16,427
Total	256,962	4,248,621	4,445,506	60,077

Other descriptions:

Employees of the Group are required to participate in defined contribution schemes which are administered and operated by the local municipal government. The Group contributes funds which are calculated on certain percentage as agreed by the local municipal government to the scheme. The Group's contributions to the defined contribution plan, including the social pension insurance schemes and the annuity plan, are recognised as expenses when incurred. As at 31 December 2023 and 31 December 2022, there are no forfeited contributions that may be used by the Group to reduce the existing level of contribution (as at 31 December 2022 and 31 December 2021: nil).

VI. Post-employment benefits due after one year-liabilities in defined benefit plan	1,220,372	1,397,155

Other descriptions:

Note 1: For the Company and other domestic subsidiaries, in addition to the basic pension insurance provided by the local government departments, the Group also provides supplementary pension insurance plans and other comprehensive retirement benefit plans for employees retired before 1 July 2007. These plans include monthly living subsidies for employees after their retirement. The Group no longer provides (pays) any supplementary retirement benefits (including supplementary benefits such as retirement salaries, subsidies, medical care) for employees retired since 1 July 2007.

The Group engaged an independent actuary, Towers Watson (Shenzhen) Consulting Co., Ltd., to estimate the present value of its above retirement benefit plan obligations using the actuarial method based on the expected cumulative welfare unit method. Towers Watson (Shenzhen) Consulting Co., Ltd. is an actuarial institution with professional certification qualifications and a member of the American Academy of Actuaries. The undersigned actuary, Haichuan Wu, is member of the Society of Actuaries and China Association of Actuaries. The plan estimates future cash outflows based on inflation rate and mortality rate assumptions and determines its present value at a discount rate. The discount rate is determined based on the market yield of the national debt that matches the term and currency of the obligations of defined benefit plan on the balance sheet date.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

VII. NOTES OF CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

43 Long-term employee benefits payable *(continued)*

(2) Changes in defined benefit plan (Mainland China) *(continued)*

The defined benefit plan exposes the Group to actuarial risks, including interest rate risk, longevity risk and inflation risk. A decrease in the rate of return of national debt will result in an increase in the present value of the defined benefit plan obligations. The present value of the defined benefit plan obligations is calculated based on the optimal estimate of the mortality rate of the participating employees, and an increase in the life expectancy of the plan members will result in an increase in the liabilities in the plan. In addition, the present value of the defined benefit plan obligation is related to the planned future payment standard, and the payment standard is determined based on the inflation rate. Therefore, the increase in the inflation rate will also result in an increase in the liabilities in the plan.

As at 31 December 2023, significant actuarial assumptions (discount rate and average growth rate of medical cost) used in determining present value of defined benefit plan obligations are as follows:

Item	31 December 2023 (%)	31 December 2022 (%)
Discount rate	2.50	2.75
Average growth rate of medical cost	7.00/12.00/8.00	7.00/12.00/8.00

The sensitivity analysis below is based on reasonably possible changes in the corresponding assumptions at the end of the year (all other assumptions remain unchanged):

Item	(Decrease)/ increase in liabilities recognized for defined benefit plan	Increase/ (decrease) in liabilities recognized for defined benefit plan
Discount rate (increase)/decrease by 1%	(87,900)	102,110
Average growth rate of medical cost (increase)/decrease by 1%	15,630	(13,640)

The above sensitivity analysis is an inference based on the impact of key assumptions on the net defined benefit plan when there is a reasonable change on the balance sheet date. Because some of the assumptions may be relevant and one assumption cannot be changed in isolation, the above sensitivity analysis may not necessarily reflect the actual changes in the present value of the defined benefit plan obligations.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

VII. NOTES OF CONSOLIDATED FINANCIAL STATEMENTS (continued)

43 Long-term employee benefits payable (continued)

(3) Changes in defined benefit plan (Other countries and regions)

Present value of the defined benefit plan obligation:

Item	RMB'000	
	Current period	Prior period
I. Opening balance	831,961	1,233,644
II. Defined benefit cost recognised in profit or loss	44,792	18,345
1. Net interests	34,288	15,222
2. Cost of service in the current year	8,974	1,215
3. Cost of service in prior years	1,530	1,908
III. Defined benefit cost recognised in other comprehensive income	141,464	(401,308)
1. Actuarial gains (Note)	93,907	(414,606)
2. Translation differences arising from translation of foreign currency financial statements	47,557	13,298
IV. Other changes	(18,730)	(18,720)
1. Paid benefits	(18,730)	(18,720)
V. Closing balance	999,487	831,961
Less: Post-employment benefits due within one year-liabilities in defined benefit plan (other countries and regions) (Note VII. 34)	(15,907)	(5,877)
VI. Post-employment benefits due after one year-liabilities in defined benefit plan (other countries and regions)	983,580	826,084

Note: The present value of the defined benefit plan obligation decreased during the year due to an increase in high quality corporate bond yields in active market.

Plan assets:

Item	RMB'000	
	Current period	Prior period
I. Opening balance	84,885	83,161
II. Additions during the year	209	–
III. Decreased during the year	(3)	(594)
IV. Translation differences arising from translation of foreign currency financial statements	4,996	2,318
IV. Closing balance	90,087	84,885

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

VII. NOTES OF CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

43 Long-term employee benefits payable *(continued)*

(3) Changes in defined benefit plan (Other countries and regions) *(continued)*

Net liabilities of defined benefit plans:

		RMB'000
Item (Note 2)	Current period	Prior period
Present value of the defined benefit plan obligation	983,580	826,084
Less: plan assets	(90,087)	(84,885)
Net liabilities in defined benefit plan	893,493	741,199

Note 2: Post-employment benefits-net liabilities in defined benefit plan (other countries or regions) are based on the liabilities recognised in the pension plan provided by the Group's subsidiary, German Rubber and Plastics Business ("Germany BOGE") and Blue Engineering Co., Ltd. and its subsidiaries ("Blue Group"), and Vossloh Locomotives GmbH and its subsidiaries ("Vossloh AG") to their employees.

The principal pension plan of Germany BOGE provides a defined benefit plan for all eligible employees in Germany. For Germany BOGE, the actuarial valuation of the present value of the defined benefit plan obligations for the most recent period (i.e. the period ended 31 December 2023) was estimated and determined by the third-party evaluation agency, Mercer Deutschland GmbH, based on the expected cumulative benefit unit method. Mercer Deutschland GmbH is an actuarial institution with professional certification qualifications in Germany and a member of the German Association of Actuaries. As at 31 December 2023, the defined benefit plan is in the net liability position of RMB0.843 billion (31 December 2022: net liability of RMB0.696 billion). According to the Pension Plan 2005 ("Rentenordnung 2005") and the Pension Plan 2004 ("Versorgungszusage 2004"), Germany BOGE provides a traditional German pension plan group, including normal and early retirement benefits and benefits for long-term disabled people and survivors of deceased employees.

Germany BOGE paid Euros to the third party escrow account, which is a restricted asset and its fair value at period-end is approximate to its book value. As at 31 December 2023, fair value of the plan asset of Germany BOGE was about RMB90,087,000 (31 December 2022: about RMB84,885,000).

As at 31 December 2023, obligations under these defined benefit plans of Germany BOGE are 9.65% (31 December 2022: 10.87%) covered by the plan assets.

No material surplus or deficiency was noted for the abovementioned plan assets.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

VII. NOTES OF CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

53 Revenue and operating costs *(continued)*

(4) Description on performance obligations

- (i) Revenue from sales of goods (revenue recognised at a certain time point):

The goods sold by the Group are mainly rail transit equipment and its extension products. The Group recognises revenue when the customer obtains control of the goods, i.e. at the time of acceptance and delivery of the goods.

- (ii) Revenue from rendering of services (revenue recognised within a certain period of time):

The Group's revenue from rendering of services is mainly extended services of railway transportation equipment. The Group recognises the revenue within a certain period of time according to the progress of the performance as the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs.

54 Taxes and surcharges

RMB'000

XII. RISKS RELATED TO FINANCIAL INSTRUMENTS

1 Risks of financial instruments

The Group's main financial instruments include cash and bank balances, held-for-trading financial assets, bills receivable, accounts receivable, receivables at FVTOCI, a part of other receivables, a part of non-current assets due within one year, a part of other current assets, loans and advances to customers, debt investments, long-term receivables, investments in other equity instruments, other non-current financial assets, other non-current assets, short-term borrowings, borrowings from central bank, deposits from banks and other financial institutions, bills payable, accounts payable, a part of employee benefits payable, other payables, a part of non-current liabilities due within one year, long-term borrowings, bonds payable, lease liabilities, a part of other long-term payables. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure the risks are monitored at a certain level.

The Group adopts sensitivity analysis technique to analyse how the profit and loss for the period and shareholders' equity would have been affected by reasonably possible changes in the relevant risk variables. As it is unlikely that risk variables will change in an isolated manner, and the interdependence among risk variables will have significant effect on the amount ultimately influenced by the changes in a single risk variable, the following are based on the assumption that the change in each risk variable is on a stand-alone basis.

3 Credit risk

Credit risk represents the risk that the failure to perform obligation by one party of the financial instruments will cause financial loss to the other party.

As at 31 December 2023, the Group's maximum exposure to credit risk which will cause losses of financial assets, contract assets and lease accounts receivables to the Group due to failure to discharge an obligation by the counterparties is arising from:

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XII. RISKS RELATED TO FINANCIAL INSTRUMENTS *(continued)*

3 Credit risk *(continued)*

- (i) The carrying amount of the respective recognized financial assets as stated in the consolidated balance sheet. For financial instruments measured at fair value, the carrying amount reflects the exposure to risks but not the maximum exposure to risks. The maximum exposure to risks would vary according to the future changes in fair value.
- (iii) The amounts of external guarantees disclosed in Note XV. 2.

The Group only has transactions with recognised and reputable third parties. According to the Group's policies, for all the customers that require to make transactions on credit, the Group needs to review the credit of the customers and determines the manner of sales on the basis of customers' credit grading, credit line and credit period. For sales on credit, the payment period and the amount on credit need to be specified in the sales contract, with the payment period not exceeding credit period, and the accumulated amount of credit sales shall not exceed the credit line. For cash on delivery, the goods are not shipped until all the collection procedures are completed, so as to ensure the Group will not be exposed to significant credit loss.

The specific method used by the Group to assess whether the credit risk of financial instruments has increased significantly since initial recognition and the basis for determining that the financial assets are impaired, as well as the policies of immediate write-off of financial assets etc. are set out in Note V. 11.

The Group's credit risk exposure to any single financial instrument is limited because the bank deposits are deposited with banks with high credit ratings.

China State Railway Group Co., Ltd. is one of the major customers for the Group (including the China State Railway Group Co., Ltd. it belongs to and other subsidiaries, together as "State Railway Group") accounts for a larger proportion of the Group's revenue, accordingly, the accounts receivable from such customer also account for a larger proportion. The Group's management believes that the customer is of reliable and good reputation, therefore the Group has no significant credit risk in respect of the receivables from this customer. Except for this customer, the Group has no other significant concentration of credit risk.

The Group's major operating activities and corresponding concentration of operating risk are located in Mainland China.

As at 31 December 2023, included in the Group's accounts receivable, the accounts receivable from the top one and top five customers respectively account for 47.5% (31 December 2022: 41.9%) and 53.9% (31 December 2022: 50.6%);

As at 31 December 2023, included in the Group's long-term receivables (including those due within one year), the long-term receivables from top one and top five customers account for 37.3% (31 December 2022: 9.8%) and 78.3% (31 December 2022: 49.7%) respectively.

Notes to the Consolidated Financial Statements

Note 1: For accounts receivable and contract assets formed under revenue standards as well as finance lease receivables formed under lease standards, the Group adopts simple method to measure the amount of lifetime ECL.

The movements of loss allowance for the Group's bills receivable, accounts receivable, receivables at FVTOCI, other receivables, contract assets, loans and advances to customers, debt investments and long-term receivables are detailed in Note VII3, VII4, VII6, VII8, VII5, VII12, VII13 and VII14.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XII. RISKS RELATED TO FINANCIAL INSTRUMENTS *(continued)*

4 Liquidity risk

Liquidity risk represents the risk that the entity encounters shortage of funds when performing the obligation relating to financial liabilities. The Group's objective is to maintain the balance between the continuity and flexibility of financing by comprehensively using multiple financing measures such as settlement with notes, bank borrowing, short-term financing bonds and corporate bonds etc. and adopting proper combination of long-term and short-term financing as well as the method of optimizing financing structure. The Group has obtained bank credit from several commercial banks to meet its need of working capital and capital expenditures. The management has been monitoring the Group's liquidity so as to ensure the Group has sufficient liquidity to repay all the due debts and get maximum benefits from its financial resources.

XII. RISKS RELATED TO FINANCIAL INSTRUMENTS *(continued)*

5 Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to the changes in market price. The market risk mainly includes interest rate risk, currency risk and price risk.

(1) Interest rate risk

Interest risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to the changes in market interest rate. The risk of fluctuations in the fair value of the Group's financial instruments due to changes in market interest rates is primarily related to the Group's fixed-rate borrowings, bonds payable, other current assets, and long-term receivables. The risk of fluctuations in the future cash flows of the Group's financial instruments due to changes in market interest rates is primarily related to the Group's liabilities with floating interest rates.

The following table sets out the sensitivity analysis of interest rate risk, reflecting the effect of reasonably possible changes in interest rate on net profit (via effect on variable-rate borrowings) (with effect of capitalisation of borrowing costs considered) under the assumption that all the other variables held constant.

Item	January- December 2023		January- December 2022	
	Increase in 25 point	Decrease in 25 point	Increase in 25 point	Decrease in 25 point
Rate of variable-rate borrowings				
(Decrease)/Increase in net profit (RMB'000)	(38,596)	38,596	(17,850)	17,850

(2) Other price risk

The Group's price risk is mainly arising from held-for-trading equity instrument investments and equity instruments at fair value through other comprehensive income. The Group adopts combination of multiple equity securities to mitigate the price risk of investments in equity securities.

(3) Currency risk

Currency risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in foreign exchange rates. The Group's exposure to the currency risk is primarily associated with its operating activities (settled in foreign currency other than the functional currency).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XII. RISKS RELATED TO FINANCIAL INSTRUMENTS *(continued)*

5 Market risk *(continued)*

(3) Currency risk *(continued)*

The Group's operating activities are mainly located in China and most of the transactions are denominated in RMB, except for certain sales, purchases and borrowings which are settled in foreign currency. The fluctuation of the exchange rate between such foreign currency and RMB will affect the Group's operating performance.

The Group tries to mitigate the currency risk to the minimum extent mainly by closely monitoring the changes in market exchange rate and actively adopting responsive measures. In the export business, the Group's policy is to provide quotation based on the expected changes of exchange rate in respect of the external contracts under negotiation; during the negotiation, it is required to specify the range of exchange rate and the risks on the buyer and seller respectively. In import business, the enterprises are required to seize the moment of foreign exchange settlement for import so as to control the currency risk.

(i) Foreign currency financial assets and financial liabilities

RMB'000

Item	31 December 2023	31 December 2022
Foreign currency financial assets:		
Cash and bank balances	8,589,326	5,592,106

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XII. RISKS RELATED TO FINANCIAL INSTRUMENTS *(continued)*

6 Capital management

The major objective of the Group's capital management is to ensure the Group's continuing operation, and provide the shareholders with continuous return by establishing a price of products and service that matches the risk level so as to obtain financing at reasonable cost.

The Group reviews and manages its capital structure on a regular basis, aiming to achieve most ideal capital structure and return to shareholders. The factors that the Group takes into consideration include: the Group's future capital demand, capital efficiency, actual and expected profitability, expected cash flows, expected capital expenditures and etc. If the economic conditions change and affect the Group, the Group will adjust the capital structure.

The Group monitors and manages its capital structure using asset-liability proportion. As at 31 December 2023 and 31 December 2022, the asset-liability proportion are as follows:

	31 December 2023	31 December 2022
Asset-liability proportion (%)	58.35	56.80

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XII. RISKS RELATED TO FINANCIAL INSTRUMENTS *(continued)*

7 Transfer of financial assets

As at 31 December 2023, the Group endorsed receivables at FVTOCI of RMB5,134,098,000 (31 December 2022: RMB7,983,900,000) to its suppliers to pay the accounts payable; discounted bills receivable of RMB4,200,055,000 (31 December 2022: RMB1,315,886,000) to bank to obtain currency funds. The Group believes that the risk and rewards of the ownership of such endorsed or discounted bills receivable have been substantially transferred to the supplier or discounting bank, and therefore derecognised such endorsed or discounted bills receivable. If the acceptor can't cash such notes, according to relevant laws and regulations of China, the Group is held jointly liable for such bills receivable. The Group believes that as the acceptor is of good reputation, there is minor risk of the acceptor's failure to cash the notes upon maturity. On 31 December 2023, if the acceptor fails to cash such notes upon maturity, i.e. the Group's maximum exposure to loss is equivalent to the amount that the Group should pay the supplier or discounting bank in respect of such endorsed or discounted notes. For all the bills receivable endorsed to suppliers or discounted to bank, the maturity is within one year after the end of reporting year.

As at 31 December 2023, the Group endorsed bills receivable of RMB2,412,929,000 (31 December 2022: RMB8,677,483,000) to its suppliers to pay the accounts payable; discounted bills receivable of RMB603,602,000 (31 December 2022: RMB1,024,628,000) to bank to obtain currency funds. The Group determines that it retains substantially all risk and rewards of the ownership of such endorsed or discounted bills receivable (including relevant risk of default), and therefore continues to recognise such endorsed or discounted bills receivable as well as the carrying amount of relevant accounts payable that have been repaid. After the endorsement or discounting of bills receivable, the Group does not retain any right to use such endorsed or discounted notes, including selling, transferring or pledging such endorsed or discounted notes to any third party.

For the year ended 31 December 2023, the Group transferred accounts receivable of RMB3,570,164,000 (for the year ended 31 December 2022: RMB6,191,797,000) to bank to obtain currency funds. The Group determines that it has transferred substantially all the risks and rewards of ownership of such accounts receivable, and therefore derecognises such accounts receivable. The Group's losses arising from derecognition of such accounts receivable are included in investment income amounting to RMB44,760,000 (for the year ended 31 December 2022: RMB140,102,000).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XIII. DISCLOSURE OF FAIR VALUE

1 Closing fair value of assets and liabilities measured at fair value

RMB'000

Item	Fair value at 31 December 2023			Total	Valuation techniques and inputs	Significant unobservable inputs
	Level 1 Fair value measurement	Level 2 Fair value measurement	Level 3 Fair value measurement			
I. Recurring fair value measurements						
(I) Held-for-trading financial assets	-	5,097,875	3,834,853	8,932,728		
1. Derivative financial assets	-	2,541	-	2,541	Note 1	/
2. Certificate of deposits, etc.	-	5,095,334	-	5,095,334	Note 3	/
3. Unlisted equity instrument investments	-	-	3,834,853	3,834,853	Note 4	Note 4
(II) Receivables at FVTOCI	-	11,498,099	-	11,498,099	Note 3	/
(III) Investments in other equity instruments	907,646	-	1,900,544	2,808,190		
1. Listed equity instrument investments	907,646	-	-	907,646	Note 2	/
2. Unlisted equity instrument investments	-	-	1,900,544	1,900,544	Note 5	Note 5
(IV) Other non-current financial assets	219,564	-	-	219,564		
1. Perpetual bonds etc. investments	219,564	-	-	219,564	Note 1	/
Total assets measured at fair value on a recurring basis	1,127,210	16,595,974	5,735,397	23,458,581		
(V) Held-for-trading financial liabilities	-	111,529	-	111,529		
1. Derivative financial liabilities	-	111,529	-	111,529	Note 1	/
Total liabilities measured at fair value on a recurring basis	-	111,529	-	111,529		

Note 1: Discounted cash flow method. Future cash flows are based on forward exchange rate (sourced from the forward exchange rate observed at financial statement date) and estimated contractual forward exchange rate, and discounted using the discounting rate reflecting the credit risk of counterparty.

Note 2: Quoted price (unadjusted) in active market.

Note 3: Discounted cash flow method. Future cash flows are estimated based on expected return and discounted using the discounting rate reflecting the credit risk of counterparty.

Note 4: Discounted cash flow method. Unobservable inputs include revenue growth and system risk factor. The revenue growth is based on the estimate of the management of the investee. The system risk factor is based on the system risk factor of historical stock price of comparative companies.

Note 5: Comparative listed company comparing method and dividends discounting model. The unobservable inputs of the comparative listed company comparing method include liquidity discount. The unobservable inputs of dividends discounting model include expected growth rate and discounting rate.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XIII. DISCLOSURE OF FAIR VALUE *(continued)*

2 Reconciliation from the opening balances to the closing balances, and sensitivity analysis on unobservable inputs for items measured at recurring Level 3 fair value measurements.

RMB'000

Item	Held-for-trading financial assets (unlisted equity instrument investments)	Investments in other equity instruments (unlisted equity instruments investment)
1 January 2023	3,204,616	1,695,943
Additions	4,589,448	230,000
Disposals	(4,305,307)	(9,297)
Transferred out in this period	–	–
Profits/(Losses)	346,096	(16,102)
Included in profit or loss	346,096	–
Included in other comprehensive income	–	(16,102)
31 December 2023	3,834,853	1,900,544

For the current year, there is no transfer among level 1, level 2 and level 3 fair value measurement of the Group's financial assets.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XIII. DISCLOSURE OF FAIR VALUE *(continued)*

3 Fair value of financial assets and financial liabilities not measured at fair value

The Group's financial assets and financial liabilities measured at amortised cost are detailed in Note IX.2. Except for the items listed below, the management of the Group determines that the carrying amount of these financial assets and financial liabilities in the financial statements approximates the fair value of such assets and liabilities.

RMB'000

Item	Carrying amount		Fair value	
	31 December 2023	31 December 2022	31 December 2023	31 December 2022
Fixed-rate debt investments	1,582,490	236,361	1,376,729	202,007
Fixed-rate long-term receivables	6,724,181	11,343,189	5,632,004	9,294,649
Fixed-rate long-term borrowings	5,089,072	3,820,289	3,091,877	2,483,898
Fixed-rate corporate bonds payable	–	2,500,000	–	2,540,605

Of the debt investments, those in listed bonds can be publicly traded in an active market and are attributable to level 1 fair value measurement; and debt investments (exclusive of investments in listed bonds), long-term receivables, long-term borrowings and corporate bonds payable are determined based on discounted cash flows and attributable to level 2 fair value measurement, with the discounting rate reflecting the credit risk of the issuer as the key inputs.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2023

XIV. RELATED PARTIES AND RELATED PARTY TRANSACTIONS

1 Parent of the Company

RMB'000

Company name	Registered place	Nature of business	Registered capital	Proportion of ownership interest held by the parent company (%)	Proportion of voting power held by the parent company (%)
CRRC Group	Beijing	Manufacturing	23,000,000	51.40	51.40

The ultimate controlling party of the Company is State-owned Assets Supervision and Administration Commission of the State Council (the "SASAC").

2 Subsidiaries of the Company

The Company's subsidiaries are detailed in Note III. 1.

XV. COMMITMENTS AND CONTINGENCIES (continued)

2 Contingencies

(1) Significant contingencies existing at the balance sheet date

RMB'000

Relevant entity	Guarantee holder	Amount of guarantee	Type of guarantee
The Company	Wuhu Yunda	1,559,480	Guarantee for performance, financing and profit or loss
CRRC Zhuzhou Locomotive Co., Ltd	CRRC E-LOCO SUPPLY(PTY) LTD	1,102,060	Guarantee for performance
CRRC (Hong Kong) Co. Limited.	CONSORCIO TREN LIGERO LINEA 4 GUADALAJARA, S.A.P.I. de C.V	917,223	Guarantee for performance and financing

(2) If there are no significant contingencies, disclose this fact:

The thirtieth meeting of the second session of the Board of Directors held on 18 July 2021 resolved that, CRRC Zhuzhou Locomotive, a wholly-owned subsidiary of the Company, entered into the Entrustment Agreement (the "Entrustment Agreement") and a series of related agreements with Zhuzhou Locomotive Industrial, a wholly-owned subsidiary of CRRC Group, which shall entrust Zhuzhou Locomotive Industrial to manage the 100% equity interest of CRRC E-LOCO SUPPLY (PTY) LTD. ("the Target Company"), and entrust Zhuzhou Locomotive Industrial to exercise all shareholders' rights from the date of the Entrustment Agreement. Based on the Entrustment Agreement, during the Entrustment Period, all operating income or operating losses of the Target Company shall be enjoyed or borne by Zhuzhou Locomotive Industrial, and the rewards and risk of changes in the overall value of the Target Company's interests shall also be enjoyed or borne by Zhuzhou Locomotive Industrial. CRRC Zhuzhou Locomotive shall relinquish all shareholders' rights from the date of the Entrustment Agreement and the Target Company will cease to be consolidated in the consolidated financial statements of the Company and the Target Company will cease to be a subsidiary of the Group. Prior to the Entrustment Agreement, in respect of the performance obligations of the Target Company and its subsidiaries under the Locomotive Supply Contracts, CRRC Zhuzhou Locomotive has provided performance guarantee ("the Guarantee") for the Target Company's subsidiary. Accordingly, CRRC Zhuzhou Locomotive will continue to provide the performance guarantee for the Target Company's subsidiary upon the effective date of the Entrustment Agreement. CRRC Group will provide the Counter Guarantee for the obligations of CRRC Zhuzhou Locomotive under the Guarantee pursuant to the Counter Guarantee Agreement, signed by CRRC Group and CRRC Zhuzhou Locomotive. As at 31 December 2023, the balance of the performance guarantee provided by CRRC Zhuzhou Locomotive for CRRC E-LOCO SUPPLY (PTY) LTD. amounted to RMB1.102 billion.
